Dear Grant Committee,

I hope this email finds you well. Please find attached our application for the Beautification Matching Grant. We are excited about the opportunity to enhance the appearance of our property and contribute to the overall beautification of our community.

Our project focuses on improving the exterior of our warehouse/shop along the Richardson Corridor, a highly visible area at the entrance to our town. Planned improvements include updating siding, replacing mismatched materials, and resurfacing the roof to create a more cohesive and aesthetically pleasing look. These enhancements will not only improve our property but also complement recent upgrades made by neighboring businesses, further revitalizing this commercial corridor.

Thank you for your time and consideration. Please let us know if any additional information is needed. We appreciate this opportunity and look forward to your feedback.

Best regards,

Tim Bouchard
