SUMMARY STATEMENT:

The ED Commission has identified priorities important to economic diversification that include beautification of the community, including abatement. To ensure the goals and action items the ED Commission develops are in line with existing and future beautification priorities, the ED Commission requested a joint work session with the Beautification Task Force.

As stated above, the ED Commission has determined abatement, or enforcement of existing zoning and nuisance codes is very important. The Commission would like to discuss future action in this arena with the Task Force.

Additionally, the purpose of the meeting is for the Commission to better understand the overall mission and goals of the Task Force, and to identify possible projects in which the two groups can work together cooperatively.

Minutes from the May and June Task Force meetings have been attached. Also, the city website description of the Task Force is attached.

MAYOR'S BEAUTIFICATION TASK FORCE

The Beautification Task Force was commissioned in 2013 by Mayor Dave Cobb to begin a coordinated, all-season community beautification effort throughout the City of Valdez. The Task Force worked for over a year to update the last Beautification Plan that was published back in the late 90's. One of the Task Force's accomplishments thus far is the design and installation of a new Welcome Sign at the city limits near mile 18 of the Richardson Highway. The Task Force invites Valdez citizen involvement with this task force and welcomes suggestions for projects and specific areas of concern. The Task Force is currently working on an Urban Design Planning and Beautification Project. The project will create a plan that can be implemented over time to make Valdez an even better place to live, more inviting for tourism and attractive to new businesses and investors.
