Implementation Services

Unless otherwise requested, professional services quoted here will be invoiced upon ordering and will be held as a retainer to be used as needed.

Services may be delivered remotely or in-person, however, in-person training will result in additional travel costs which may include: airfare, accommodations, transportation, and a fixed per diem for meals/incidentals (\$60/Day). MC follows standard business [travel guidelines](#) and will invoice incurred costs following an in-person visit. If you prefer to arrange travel on our behalf, please communicate this directly to your Implementation Consultant. Please note that in-person visits are not typically scheduled for a duration of less than two service days and confirmation of purchase is required before scheduling may take place. Finally, purchased services may be utilized for any topics that you request.

To proceed read the following and click below

1) Professional Services may be used for project planning, data migration, core configuration, process design, go-live and managing results for the core and complementary modules. They may also be used for scoping, development, testing, and installation for a modification request. 2) Source code for Maintenance Connection will be provided upon purchase. Upon each new release, if Customer is under support contract, source code for new releases will be provided as well. 3) Payment terms will be NET 30. Invoice will reflect software licensing + implementation services and first year annual support fees. Hosting fees (if applicable) will begin being billed the month after the database is available online.
