Invitation to Bid**

Date: April 29, 2024

**Project: Landsharks Contaminated Soil Removal
Project Number: 24-350-0600 / Contract Number: 2221**

This project includes, but is not necessarily limited to:

Base Bid:

The contractor will provide all labor, materials, and equipment to excavate soil, transport material, backfill the excavation, and construct the landfarm for this project.

Removal of approximately 812 cubic yards of contaminated soil and approximately 271 cubic yards of uncontaminated soil located at 121 Egan Street, Lot 2 LT 1, Block 29 Mineral Creek. Previous location of the Landsharks bar and No Name Pizza restaurant. The clean-up excavation will encompass the impacted 2021 borings and contaminated borings from 2023. However, excavation activities will be limited to the subject property and adjacent property to the west and will not be advanced within the right-of-way so as to avoid undermining existing utilities and pavement. The excavation will be advanced until contamination is no longer identified, or groundwater is encountered. Any excavated uncontaminated soil will be used as backfill first and the remaining backfill will be type IIA material.

Excavated soil will be designated potentially clean, potentially contaminated, or contaminated based on field observations or the field screening results. The potentially clean and potentially contaminated soil will be stockpiled in accordance with 18 AAC 75.370 on a paved surface south of the excavation. Contaminated soil will be transported offsite for landfarming. Stockpiled soil will be covered with a 6-mil liner to prevent precipitation runoff from the stockpiled soil. Potentially clean soil will be stockpiled separately from potentially contaminated soil.

Contaminated soil generated during the excavation activities will be transported directly to the Valdez Landfill located off Glacier Haul Road and landfarmed. The property is owned by the City of Valdez and overseen by the Public Works Department. If the results of the samples collected from the potentially clean and potentially contaminated soil stockpiles contain contaminant concentrations exceeding the ADEC Method Two cleanup levels, the material will also be transported to the Valdez Landfill for landfarming. If the stockpile sample results are less than the ADEC Method Two cleanup levels, the material will be used to backfill the excavation.

The landfarm will be constructed by the contractor in accordance with the ADEC's March 2020 *Landfarming at Sites in Alaska* Technical Memorandum. A map showing the proposed location of the landfarm area is included in the attached cleanup work plan as Figure 3.

The City of Valdez's Representative, Shannon & Wilson Geotechnical and Environmental Consultants will provide a Qualified Environmental Professional (QEP) to conduct all field screenings outlined in the clean-up work plan. The City's project manager will coordinate with

both the contractor and Shannon & Wilson to determine the project start date/schedule. It is expected that the QEP will not be available until after July 4, 2024.

The scope of work is more specifically described in the attached document titled “Additional Release Investigation and Clean-up Activities Work Plan” provided by Shannon & Wilson Geotechnical and Environmental Consultants.

Engineers Estimate for construction is between \$ 200,000 and \$ 300,000.

Alternate #1:

Transportation and disposal of all contaminated soil to a thermal remediation facility in the state of Alaska. This alternative, if awarded would replace the need for any landfarming activities of the contaminated soil and thus bid line items #3 and #4 would be removed for the contract base bid schedule.

Sealed bids will be accepted electronically until 2:00pm local time on May 21, 2024, at www.bidexpress.com. The bids will be publicly opened at that time.

A non-mandatory pre-bid conference will be held at the office of the Capital Facilities Director, 300 Airport Road, Suite 201, Valdez, Alaska on May 7, 2024 at 2:00 pm.

Complete sets of the bid documents may be purchased from Digital Blueprint, 903 West Northern Lights Blvd., Anchorage, AK 99503, (907) 274-4060. Bid documents may also be downloaded from the City of Valdez solicitation page at www.bidexpress.com. Bidders are encouraged to register as a plan holder at the link listed within the bid posting to ensure receipt of any addendum issued for this project.

Deadline for questions is May 16, 2024, at 4:30pm.

The City reserves the right to waive any irregularities or informalities in a bid and to reject any and all bids without cause.

Requirements of the Alaska Employment Preference (AS 36.10) must be met.

**Project: Landsharks Contaminated Soil Removal
Project Number: 24-350-0600 / Contract Number: 2221**

SP 01 General Statement

The Special Provisions set forth conditions and requirements unique to this Project and are supplemental to, and supersede, the City of Valdez “Standard Specifications and Standard Details.”

SP 02 Scope of Work

Base Bid

The Scope of Work of the Base Bid of this Contract shall include providing all labor, materials, tools, equipment, transportation, supervision and facilities necessary to:

The contractor will provide all labor, materials, and equipment to excavate soil, backfill the excavation, and construct the landfarm for this project.

Removal of approximately 812 cubic yards of contaminated soil and approximately 271 cubic yards of uncontaminated soil located at 121 Egan Street, Lot 2 LT 1, Block 29 Mineral Creek. Previous location of the Landsharks bar and No Name Pizza restaurant. The clean-up excavation will encompass the impacted 2021 borings and contaminated borings from 2023. However, excavation activities will be limited to the subject property and adjacent property to the west and will not be advanced within the right-of-way. The excavation will be advanced until contamination is no longer identified, or groundwater is encountered. Any excavated uncontaminated soil will be used as backfill first and the remaining backfill will be type IIA material. Using a

Excavated soil will be designated potentially clean, potentially contaminated, or contaminated based on field observations or the field screening results. The potentially clean and potentially contaminated soil will be stockpiled in accordance with 18 AAC 75.370 on a paved surface south of the excavation. Contaminated soil will be transported offsite for landfarming. Stockpiled soil will be covered with a 6-mil liner to prevent precipitation runoff from the stockpiled soil. Potentially clean soil will be stockpiled separately from potentially contaminated soil.

Contaminated soil generated during the excavation activities will be transported directly to the Valdez Landfill located off Glacier Haul Road and landfarmed. The property is owned by the City of Valdez and overseen by the Public Works Department. If the results of the samples collected from the potentially clean and potentially contaminated soil stockpiles contain contaminant concentrations exceeding the ADEC Method Two cleanup levels, the material will

also be transported to the Valdez Landfill for landfarming. If the stockpile sample results are less than the ADEC Method Two cleanup levels, the material will be used to backfill the excavation.

The landfarm will be constructed by the contractor in accordance with the ADEC's March 2020 *Landfarming at Sites in Alaska* Technical Memorandum. A map showing the proposed location of the landfarm area is included in the attached cleanup work plan as Figure 3.

The City of Valdez's Representative, Shannon & Wilson Geotechnical and Environmental Consultants will provide a Qualified Environmental Professional (QEP) to conduct all field screenings outlined in the clean-up work plan. The City's project manager will coordinate with both the contractor and Shannon & Wilson to determine the project start date/schedule. It is expected that the QEP's availability will be better after July 4th and the project will most likely start after this date.

The scope of work is more specifically described in the attached document titled "Additional Release Investigation and Clean-up Activities Work Plan" provided by Shannon & Wilson Geotechnical and Environmental Consultants.

Alternate Bid(s)

The Scope of Work of the Additive Alternate No. 1 Bid of this Contract shall include providing all labor, materials, tools, equipment, transportation, supervision and facilities necessary to:

Transportation and disposal of all contaminated soil to a thermal remediation facility in the state of Alaska. This alternative, if awarded would replace the need for any landfarming activities of the contaminated soil and thus bid line items #3 and #4 would be removed for the contract base bid schedule.

SP 03 Time of Completion

All work shall be completed in accordance with the Contract Documents by October 15, 2024.

Liquidated damages will be assessed in the sum of Five Hundred dollars (\$500.00) for each calendar day after the completion date during which the Project remains incomplete.

Substantial Completion: Substantial Completion shall be defined as the stage in the progress of the work when the work is sufficiently complete in accordance with the Contract Documents so the Owner (City) can occupy or use the structure or that which is the subject of the contract, for its intended use.

SP 04 Special Site Conditions

The Contractor will be responsible for the disposal of all refuse and debris generated by the project. The City has, on a limited 'first come first served' basis, dumpsters for use free of charge on City projects if available.

The Baler is located approximately 5 miles out of town. Please contact the Baler ahead of time to make arrangements for the disposal of such materials. The Baler's number is 907-835-2356. The project name or contract number will be required on all Baler disposal forms and when calling to reserve or empty dumpsters.

Local building permit fees are waived. The Contractor will be responsible for obtaining any required local building permits before the NTP is issued. The Contractor will need to call the City Planning Department at 907-834-3401.

Staging area will be Landshards parking lot south of the contaminated site.

The Contractor will be responsible for moving snow, fencing, and other items necessary to complete the work.

The Contractor is responsible for setting up detours or barricades if their work is in a public area and will interfere with normal traffic flow.

The contractor is responsible for providing their own restroom facilities (porta potty).

An executed Right of Entry Agreement with Valdez Food Cache, LLC. has been attached to show permission is granted to complete any work on the adjacent property of the project site.

SP 05 Hazardous Waste Generation

Every effort to minimize or eliminate the generations of hazardous waste shall be used by the Contractor in the performance of the work of this Contract. Unless there is no substitute, no hazardous material shall be used in the performance of the work of this Contract.

SP 06 Coordination and Schedule

The Contractor shall, within ten (10) working days of the date of the Notice to Proceed, submit to the Engineer a schedule as required in Section 10.5, Control of Work, Article 5.3. The schedule shall be updated every week. An updated schedule shall be submitted with each of the Contractor's Periodic Payment Requests. Failure to provide an updated schedule will be cause to withhold partial payment.

At all times during the work, keep the premises clean and orderly. Upon completion of the work, repair all damage caused by equipment and leave the Project free of rubbish and excess materials of any kind.

SP 08 Permits

The Contractor shall obtain all licenses and permits that are required to do the work.

SP 09 Order of Award of Alternative Bids

Additive Alternate and/or Deductive Alternative Bids will be awarded, if any are awarded, in any order determined to be the most advantageous combination by the owner.

SP 10 Payment

Payments shall be in accordance with Section 10.07, Measurement and Payment of the CVSS. All invoices for payment must be submitted on a City of Valdez *Periodic Payment Request Form*. An electronic copy of this form (Excel Spreadsheet) will be made available for the Contractor's use.

Disbursement of money to a person, firm or corporation will be made only after all the various receivable accounts of the general government and any municipal utility or enterprise have been reviewed for outstanding balances owed, and the disbursement will be reduced by setting off the amount of any delinquent indebtedness due the city from such person, firm or corporation.

All contracts to which the city is a party which will or may involve the disbursement of city funds shall contain the following clause, or its substantial equivalent: "Disbursement of money by the City of Valdez hereunder shall subject to set-off pursuant to the provisions of the Valdez City Code." Such contracts include, but are not limited to, oral contracts, employment contracts, construction contracts, purchasing contracts and contracts of any municipal utility or enterprise, including customer's deposits.
