The security monitoring station will then listen for any activity. If it is an authorized employee, the central monitoring station will ask for name and password for verification. If the employee gives an acceptable answer the police dispatch will be canceled. If the reply to the central monitoring station does not meet criteria, the police dispatch will continue. The authorized employee will be notified and directed to the premise to follow the protocol directed by the police. We plan on using the MJ Freeway system. We have been in contact with their representatives and have been assured that they can and in fact do share information with the METRC system. We have watched their videos on You Tube and have been provided reference from a CPA in the Seattle area who spoke highly of the system. We feel confident that they are a reputable company that will provide quality service. We are providing a sample label from them that is State compliant. We will be using the elite service plan they offer so that we can take advantage of all the features their company provides.

**Section 8 – Control Plan for Persons Under the Age of 21**

Describe how the marijuana establishment will prevent persons under the age of 21 from gaining access to any portion of the licensed premises and marijuana items:

Herbal Outfitters is committed to keeping marijuana out of the hands of persons under 21 years of age.
