SP 01 General Statement

The Special Provisions set forth conditions and requirements unique to this Project and are supplemental to, and supersede, the City of Valdez "Standard Specifications and Standard Details."

SP 02 Scope of Work

Base Bid

The Scope of Work of the Base Bid of this Contract shall include providing all labor, materials, tools, equipment, transportation, supervision and facilities necessary to:

Construct a new municipal well facility and all ancillary materials and equipment for a functioning groundwater well pumping station.

SP 03 Time of Completion

All work shall be completed in accordance with the Contract Documents by December 31, 2026.

Liquidated damages will be assessed in the sum of one thousand dollars (\$1,000.00) for each calendar day after the completion date during which the Project remains incomplete.

Substantial Completion: Substantial Completion shall be defined as the stage in the progress of the work when the work is sufficiently complete in accordance with the Contract Documents so the Owner (City) can occupy or use the structure or that which is the subject of the contract, for its intended use.

SP 04 Special Site Conditions

The Contractor will be responsible for the disposal of all refuse and debris generated by the project. The City has, on a limited 'first come first served' basis, dumpsters for use free of charge on City projects if available.

Dump fees will be waived. The Contractor will be responsible for hauling demolished materials and construction waste out to the City Baler facility on South Sawmill Drive. The Baler is located approximately 5 miles out of town. Please contact the Baler ahead of time to make arrangements for the disposal of such materials. The Baler's number is 907-835-2356. The project name or

contract number will be required on all Baler disposal forms and when calling to reserve or empty dumpsters.

Local building permit fees are waived. The Contractor will be responsible for obtaining local building permits before the NTP is issued. The Contractor will need to call the City Building Department at 907-834-3401.

Staging area will be located adjacent to the new well house. The contractor is not to store materials or park vehicles and equipment on the elementary school property.

The Contractor will need to keep their equipment and materials out of the way of snow plowing and snow storage operations. The new well house will be built next to a snow storage lot. Snow removal and snow storage operations typically run from late October through early May.

The Contractor is responsible for setting up detours or barricades if their work is in a public area and will interfere with normal traffic flow.
