RE: Alaskan Greenery Inspection [VPD 17-2961]

DATE: July 18, 2017

At approximately 1715 hours on June 30, 2017, I visited Alaskan Greenery so that I could conduct an inspection of their commercial marijuana cultivation facility, as their annual re-application was due. The last inspection had been conducted on March 1, 2017 – at which time Alaska Greenery was operating as a viable cultivation facility, growing multiple strains of marijuana, and planning an expansion of his cultivation facility.

Mr. Liljedahl had previously informed me that he intended to expand to 3 grow rooms – for a total of about 1000 square feet. At the time of this inspection, Alaskan Greenery was operating 2 grow rooms. Construction for the third grow room was in progress.

As I have become accustomed to, Mr. Liljedahl was highly cooperative, forthcoming with details surrounding his business, and operating in a manner that meets or exceeds industry regulations. During the duration of the inspection, I did not observe any noticeable violations or any business practice that would indicate Alaskan Greenery is operating out of compliance with State of Alaska or City of Valdez regulations. To date, we have not received any complaints from nearby residents regarding an odor of marijuana emanating from Alaskan Greenery.

Additionally, Alaskan Greenery recently was recognized at the annual Cannabis Classic in Anchorage, where they won the award for the Best Retail Product (photos attached). I mention this not as a personal or professional endorsement, but merely to highlight the professional manner in which Mr. Liljedahl and Alaskan Greenery has operated to date.
