Summary of Sales Comparison Approach							
Summary of Sales Comparison Approach - Valuation Discussion							
Very limited data in this small lot / no access market in the Old Town Valdez market, with no sales in the subject subdivision discovered so I had to expand my search criteria. I have reviewed the most recent, most applicable vacant land transactions in Valdez, with the six most recent / most applicable sales discovered analyzed in the sales comparison grid. I had to expand my search parameters (date of sale, site size, zoning, location) due to the lack of recent sales of similar size, similar utility properties, and after adjustments, comps provide the only data for analysis. Numerous percentage adjustments were necessary to reflect the differing attributes, adjustments as follows: location adjustments to reflect comps inferior locations, most having superior locations with good access and visibility in downtown Valdez - larger adjustments necessary to reflect superior locations with better access / visibility - subject site has no visibility and no access. Zoning adjustments to reflect superior zoning, adjustments to reflect superior frontage and visibility, with additional adjustments to reflect overall lot characteristics and development options / density, superior utility of use - all comps are large enough for some sort of development, while subject is very small and has limited site development options. Soils conditions are considered overall similar. Large utility adjustments were also necessary to reflect water, sewer, telephone and electric to the comparable sites.							
Overall adjusted \$/SF shown ranges from about \$0.12/SF to \$0.37/SF, average of about \$0.21/SF. Overall adjusted SP of the comps provides an additional good indicator, ranging from \$2,650 to \$14,000, overall average of \$7,000/site, with more weight given to S-2, S-4 & S-5, with a tighter range and average of \$4,800/site. The concluded value will be below the mid-range due to lack of utilities, no access, no visibility, limited utility of the smaller size of the site and and considering the location in the Old Town Valdez neighborhood, west of the Richardson Highway with no visibility or access. The concluded adjusted range of both indicators ranges from about \$2,650 to \$10,000, final value of \$4,000 deemed most appropriate considering all attributes.							
Concluded Value of Lot 3, Block 50 - 840 Klutina St. as if vacant and unimproved is \$4,000.							
COVID-19 DISCUSSION							
This appraisal report was performed following public awareness that COVID-19 is affecting residents in the United States and Alaska. The global outbreak of a “novel coronavirus” known as COVID-19 was officially declared a pandemic by the World Health Organization (WHO). At the time of this document, COVID-19 was beginning to have widespread health and economic impacts. The effects of COVID-19 on the real estate market in the area of the subject property were not yet measurable based on reliable data. The analyses and opinions in this report are based on the data available to the appraiser at the time of the assignment and apply only as of the effective date indicated. No analyses or opinions contained in this report should be construed as predictions of future market conditions. The reader is cautioned, and reminded that the conclusions presented in this appraisal report apply only as of the effective date(s) indicated. The appraiser makes no representation as to the effect on the subject property of any unforeseen event, subsequent to the effective date of the report.							
It is unclear how the COVID 19 crisis will affect the economy, especially as it relates to the Valdez real estate market, with likely major economic impacts and possible long-term financial ramifications of the COVID 19 pandemic. Considering the subject is a vacant lot with limited potential development options, the prediction is that most things will likely be back to normal within a year as far as local economies are considered, and this analysis is considered reliable. That being said it is unclear what the overall economic impact of an entire nation shutting down for one month or more will affect our local / state / national economies long term, therefore the reader is cautioned regarding any decisions made on the subject, as no-one knows how this will affect the economy and proposed business.							
ADDITIONAL LOTS WITHIN THE SUBDIVISION							
At the request of the client, there are numerous additional lots within the subdivision in close proximity to the subject that may be sold as well, and these should have similar overall individual lot values as the subject. That said, if the individual lots are sold as an assemblage or by block (with numerous lots making up the sale) there would be a discount applied to multiple sales of lots within a block.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, October 27, 1994.)

* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.
2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The appraiser has made no survey of the property.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.
6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
7. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

CERTIFICATION: The appraiser certifies and agrees that:

- 1. The statements of fact contained in this report are true and correct.
- 2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- 3. Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- 4. Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- 5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- 6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- 7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- 8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- 9. Unless otherwise indicated, I have made a personal inspection of the interior and exterior areas of the property that is the subject of this report, and the exteriors of all properties listed as comparables.
- 10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).
