Ofc Pritchett,

Thanks for the warm welcome back to the ICAC. I am excited about this opportunity to work with people passionate about proactively seeking out those in our society that want to harm children. It looks like your Department has taken several large steps in insuring you have the ability to effectively investigate and prosecute Internet Crimes Against Children. The fact your Department has obligated 25% of the purchase price speaks volumes about their commitment to investigate these types of crimes. The AK ICAC is here to assist you in that noble endeavor. Per our phone conversation yesterday your Grant request for \$5588.74 is approved. Please use this email as documentation of our commitment. I look forward to meeting you and your Department in the near future.

Thanks,
Kevin

Subject: Valdez Police Dept. ICAC Grant Request

Lt. Vandegriff,

Welcome back to the Cyber Crimes Unit and the ICAC Alaska Task Force! The Valdez Police Department is a newer affiliate agency to ICAC here in Alaska. Over the past two years we have been slowly building our resources and training to start taking on more cases and get more involved in proactive cases here in Alaska. About a year ago we designated a room as a computer lab, and last year we purchased a laptop with FTK dedicated to ICAC investigations. Since then our case load has been rapidly increasing and about that time and it became necessary to increase training and resources to handle the incoming case load.

Fortunately, in April, I was invited to attend the National Computer Forensics Institute in Hoover, AL, for their BCERT and MDE Courses. I received 7 weeks of computer, and mobile device investigations training and about \$70,000 worth of tools including a FRED, laptops, write blockers, IEF License, X-Ways License, Lantern, as well as training on NetClean and NUIX Investigator with a demo license. It was phenomenal training and a great assortment of tools!

These courses provided us the bulk of the equipment; however, with us starting a lab from scratch, we still need some basic infrastructure to setup and network the devices, create a storage system for cases and images, and integrate some security into our network. As it is right now, we are very limited in our ability to back-up and store images and case files, and we have no centralized or networked storage. The grant request attached to this email is a one time request to setup the initial infrastructure of the VPD ICAC computer lab.

We would like to contribute in-kind 25% towards the purchase of the equipment and ask that the ICAC consider assisting us with the remainder.

Thank you for your consideration!

-Andrew

**MEMORANDUM OF AGREEMENT
BETWEEN THE VALDEZ POLICE DEPARTMENT
AND THE ANCHORAGE POLICE DEPARTMENT**

1. **Parties.** This Memorandum of Agreement (hereinafter referred to as "Agreement") is made and entered into by and between the **Valdez Police Department** hereinafter referred to as Member Agency, whose address is **212 Chenega Avenue (Post Office Box 307), Valdez, Alaska 99686** and the **Anchorage Police Department (APD)**, whose address is **4501 Elmore Road Anchorage Alaska, 99507**.

2. **Purpose.** The purpose of this Agreement is to establish the terms and conditions under which law enforcement investigative entities in the State of Alaska will participate as member agencies in the Alaska Internet Crimes Against Children Task Force (AKICTF).

3. **Term of Agreement.** This agreement is effective upon the day and date last signed and executed by the duly authorized representatives of the parties to this Agreement and/or the governing bodies of the parties' respective boroughs or municipalities and shall remain in full force and effect until June 30, 2016, unless extended by the Department of Justice. This Agreement may be extended for a period of up to one year, commensurate with any extension of the federal grant program end date, and upon mutual consent of both parties by written amendment. This Agreement may be terminated, without cause, by either party upon 30 days written notice, which notice shall be delivered by hand or by certified mail to the address listed above.

4. **Investigative Responsibility.** Only sworn law enforcement personnel will conduct undercover Internet Crimes Against Children (ICAC) investigations. All investigators involved with ICAC undercover operations must receive appropriate training prior to initiating proactive investigations. Member Agency shall make investigators designated to Alaska Internet Crimes Against Children Task Force (AKICTF) operations available for specialized training provided through the national ICAC and other applicable training programs.

Conduct reactive investigations where subjects are associated with Member Agency's jurisdiction, including investigations of child pornography, CYBERTIP referrals from the National Center for Missing and Exploited Children (NCMEC), Internet Service Provider and other law enforcement referrals, and other Internet Crimes Against Children related investigations. Cases may also be initiated due to documented public sources, direct observations of suspicious behavior, subject of interviews, public complaints, etc.

Conduct education and prevention programs to foster awareness and provide practical, relevant guidance to children, parents, educators, librarians, business and law enforcement communities and other individuals concerned with internet child safety issues. Presenters shall not discuss active investigative techniques and undercover operations utilized by the Alaska Internet Crimes Against Children Task Force

(AKICTF). Confidential information pertaining to investigations will be held in the strictest confidence and will only be disseminated among the AKICTF members or other law enforcement agencies where necessary or permitted by state or federal law.

The Member Agency will be responsible for operational supervision, administrative control and the professional conduct of its officers and agents assigned to the AKICTF.

Provide investigators assigned to the AKICTF a secured work area with controlled, restricted access to all equipment, software and investigative files. Allow assigned investigators access to all ICAC investigative files in order to ensure compliance with all national ICAC standards.

5. **Deconfliction** Member Agency shall deconflict all cases prior to investigative action using WSIN (Western States Information Network) and ICACCOPS (Internet Crimes Against Children Child Online Protective Services) to prevent duplicating investigative efforts.

6. **Investigative Records and Statistical Reporting.** Member Agency shall record and document all undercover investigative and online activity in relevant case file and submit to the Anchorage Police Department.

Utilizing a link provided by the Anchorage Police Department, Member Agency shall update monthly statistics to the SmartSheet document assigned to the Member Agency on all ICAC investigations or other investigative operations pertaining to the sexual exploitation of children via the internet. These statistics shall be submitted in the appropriate format by no later than the 5th day of each month and shall include data on all investigations opened or closed, forensic investigations performed, subpoenas and court orders issued, training hours attended or taught, technical and investigative assistance provided to other agencies and community outreach provided in the reporting month.

Anchorage Police Department will compile monthly Member Agency reports and submit information directly to the Office of Juvenile Justice and Delinquency Prevention (OJJDP).

7. **Reimbursement.** Member Agency has been awarded a **Ten Thousand Dollar (\$10,000)** grant for FY2015. This allows Member Agency to obligate funds for authorized ICAC expenditures up to the award amount. Expenditures may be for supplies; travel and training that increase computer forensic capabilities and enhance the ability to investigate ICAC related cases. **All expenditures for which reimbursement will be sought must be approved in advance, in writing** by the AKICTF Commander. To be eligible for FY2015 grant year funding, all **pre-approved reimbursement receipts** must be received by the Anchorage Police Department no later than **30 days after the purchase or completion of travel, and no later than April 30, 2016.** Failure to meet deadlines may result in lack of reimbursement.

The **Valdez Police Department** will be eligible for reimbursement at the discretion of the AKICTF Commander. The AKICTF Commander will take into account the following factors before granting approval: past performance, monthly statistics, and task force involvement. Reimbursement will only be granted for approved activities as outlined in the **FY2015 Internet Crimes Against Children Task Force Continuation Grant**.
