Hi Dahlia,
That is a great point that has actually not yet been discussed. May I submit this email to the Commission as a recommendation that the aesthetics of the coop be addressed? Thanks for taking time to review this and provide feedback. Much appreciated. Lisa

Thank you so much Lisa! I think the proposal looks comprehensive. I do wonder what the coop is allowed to look like (I just imagine dilapidated, scrap wood structures, but hope chicken owners take time to build something aesthetically pleasing) . Will that be addressed?

Thank you,
Dahlia

Hi Dahlia,
Thanks for your call today. Please see the attached document with proposed guidelines if chickens are to be allowed. Let me know if you have any other questions or comments. Lisa
