Proposal for Professional Design Services**

Dear Mr. Benda and Ms. Langdon:

BDS Architects with its specialized Roof Technology Group (RTG) is pleased to propose professional design services for this work. This letter proposes work scope, schedule and fee.

Scope of Work

We understand the primary goal of this project is to replace the roofs so leaks are ended for the long term and insulation is improved. The roof surface must be exceptionally durable to withstand the abuse of normal Valdez snow removal and snow loads. A tough membrane plus a thorough level of detailing will be key to accomplishing these goals.

Design is to be primarily in 2017 for 2018 construction. Tasks are:

1. Site Investigation and Report
2. Contract documents
3. Bidding assistance

Our roof design group provides long lasting durable designs, including adding parapets where they are non-existent, in some instances rebuild insulation and vapor retarder systems, and generally following good roof system fundamentals.

Site and Report (35% design) includes:

1. We will collect extensive and accurate asbuilt information to be utilized for the design documents. Knowing existing roof drain sizes, structure slopes, all details, etc, will be important.
2. Site investigation will provide roof system cuts. We will hire a competent roofing contractor from Anchorage to provide professional cuts and patches so we know what existing construction and condition is at the roof perimeter edge and from the membrane to the interior ceiling finish. We will test asphaltic products for asbestos.
3. We will walk the building perimeter, the interior and the roof collecting data for design.
4. Supporting photos.
5. Preliminary existing and proposed roof plans with typical details.
6. Cost estimate.
7. Letter format report.
8. Project management and QC.
9. We request ladders for access to multiple roofs.

Construction Documents:

1. When the COV has approved the 35% submittal the design will proceed with the bid documents. A 95% submittal is proposed for review by the COV. A final, 100% submittal would be utilized for the bid documents. Further change can be accomplished via addendum during bidding.
2. Drawings included:
 - a. information sheet
 - b. existing and new roof plans
 - c. detail sheets
 - d. possibly exterior elevations, partial roof framing plans, etc

Drawings will be set up similar to the Library, Museum, HHES Canopies Reroof 2015 project.

3. Specifications with color photos for contractors use.
4. Cost estimates will be submitted with each submittal.

5. Project management and QC.

General:

1. Aid the COV to plan and clearly describe the construction schedule in the bid document. May is generally a good construction month in Valdez with July and August being rainier.

2. Potential membrane types:

We generally encourage the use of a multi-layered, built-up asphaltic membrane due to its quality, durability and long life. We understand these buildings are not overdesigned structurally so the addition of concrete pavers as protection from snow removal would not be advisable. The asphaltic membrane with a thick protective mineral cap sheet is recommended; this membrane was utilized on the Museum, Library, and Airport.

Membrane redundancy, meaning 'multiple layers', is a fundamental of good roof design. Other important components are insulation layers and proper detailing.

3. The assumption is that there will be no structural upgrades. We assume these buildings are under-designed per the current snow live load requirements resulting in an established snow removal program.
4. As discussed, construction administration fees can be proposed later.
5. These buildings have varying structures, sizes, and deficiencies.
6. Tenting protection requirements from rain and wind will be included similar to the previous BDS design roofing projects. This protects the COV from contractor claims of rain delay or damage while keeping the project on schedule.
7. Are there any environmental reports available?

Bidding - Assist the COV with addendum, contractor calls, attend the prebid meeting in Valdez.

Proposed Schedule (approximately)

03-31-17	Submit fee proposal
04-29-17	NTP
06-01-17	Site investigation
08-01-17	35% design
10-01-17	95% CD's submittal for COV review
11-01-17	100% CD's submittal
11-08-17	Out to Bid
11-18-17	Prebid meeting, at site
12-08-17	Bid
04-15-18	Begin demolition and construction, at soonest likely
09-30-18	Complete construction

We suggest a somewhat aggressive schedule so construction is doable but is not pushed into the rainy months.

Proposed fee

We roughly estimate the cost of construction per the roof report to be in the \$860,000 range. We propose to provide the following services on a "lump sum" basis.

\$ 9,000	Site investigation
\$ 15,000	35% design
\$ 45,000	95% design
\$ 13,000	100% design
\$ 1,000	Bidding assistance
<hr/>	
\$ 83,000	Total proposed

Thank you for your consideration.

Sincerely,

John Stadum, Principal
Roof technology Group Manager

If the City becomes aware of any fault or defect in the work of the Consultant or nonconformance with this Agreement, the City will give prompt written notice thereof to the consultant. Should the Consultant's services remain in nonconformance to this Agreement, the percentage of total compensation attributable to the nonconforming work may be withheld.

The City at any time may terminate (convenience termination) or suspend this Agreement for its own needs or convenience. In the event of a convenience termination or suspension for more than three months, the Consultant will be compensated for authorized

NO fee or other compensation for the uncompleted portion of the services will be paid, except for already incurred indirect costs which the Consultant can establish and which would have been compensated for over the life of this Agreement, but because of the convenience of the termination would have to be absorbed by the Consultant without further compensation.

Good cause shown includes time for the Consultant to prepare the claim, and the City's Project Manager will grant an extension of not more than sixty (60) days for preparation of the claim. The Consultant agrees that unless these written notices are provided, the Consultant shall not be entitled to additional time or compensation for such act, event or condition. The Consultant shall in any case continue diligent performance under this Agreement. The Consultant shall in any case continue to expeditiously accomplish disputed services pending future resolution of the Consultant's claim unless notified by the City to stop work on the disputed matter.

The Contract Officer reserves the right to make a written request to the Consultant at any time for additional information which the Consultant may possess to support the claims(s). The Consultant agrees to provide the City such additional information within thirty (30) days of receipt for such a request. The notice of appeal shall include specific exceptions to the City's decision including specific provision of this Agreement which the Consultant intends to rely upon on appeal. General assertions that the City's decision is contrary to law or to fact are not sufficient.
- The decision of the City Manager will be rendered within 120 days of notice of appeal and the decision constitutes the exhaustion of contractual and administrative remedies.
