Dear AnnMarie Lain,

The Department of Natural Resources, Division of Mining Land and Water, Southcentral Region Office (DNR DMLW SCRO) has reviewed the information contained within the request for comments on the proposed replatting of Robe River Subdivision Lots 6,7, 8 and 9 (VRD Plat 69-37M / 84-2). SCRO recommends that the plat dedicate an easement over the channel of the Robe River within these lots in order to provide clarification of the public's ability to traverse this waterbody. SCRO has no other case-specific comments concerning this notice.

Thank you for your notice. Please let me know if you have any other questions or concerns regarding this or other easements.

Best regards,

Brittany Smith
