## Answer the following questions:

Describe any factual evidence that suggests that the building was erected in good faith and every intent of meeting the provisions of this chapter, and that the innocent error does not violate the spirit and intent of the zoning regulations.

Several factors determined the location of the house City plat right of way shows 40 feet for Nebesna street. I measured outside of curb to outside of curb which

Describe how the granting of the exception will not result in material damage or prejudice to other properties in the vicinity nor be detrimental to the public health, safety or welfare.

problems or issues to any sumunding structures or people. You will see that several horses on vebesina have similar set backs.

Describe how the granting of the exception will not be contrary to the objectives of the comprehensive plan.

I know I constructed the house in good faith and to the best of my ability. I will note; my excuse for not getting it surreyed is that I felt confident in the existing markers that I found on the property. Also, my surreyor retired and I was without one this spring. Wack Philips).

I was 41 feet. Then I pulled in 10 feet from curb. There was an original stake with a ripbon which was a supposed property marker. I should have confirmed this but I did not. This ended up being 1600+13 inches off from the surveyed ended up being 1600+13 inches off from the surveyed warker. Pulling off from the marker, I pulled 22 feet thinking marker. Pulling off from the marker, I pulled 22 feet thinking marker. Pulling off from the buffer room from the 20 foot settlewald give myself some buffer room from the 20 foot settlewald give myself some buffer room from the 20 foot settlewald give myself somewhere in the building process, the foundation pins got moved forward and encroached on the set-back, which I take full responsibility for. I am the builder and owner of the house and did not catch this. The third reason the house is so close to the set back is because I was trying to make the house fit best with the existing grade of the property.
