Subject: Resignation from Planning and Zoning Commission

Effective March 1st, 2018, I am resigning my Commission from the Planning and Zoning Board. I have been offered the Deputy Director of Facilities position with SEARHC Hospital in Sitka Alaska and I have accepted. Being a part of the Planning and Zoning Commission here in Valdez has been a very rewarding experience and I will truly miss working with my fellow commissioners. I became a Commissioner to get involved with my community and to help see it grow. In my short time as a Commissioner, I have seen great progress and I wish you continued success. It has been a pleasure to serve the City Council and our community for the past year and a half. I hope in some small way, my contributions have helped make Valdez a better place.

I would also like to thank my fellow Commissioners and wish them continued success of their future endeavors. I have heard numerous times that our current Planning and Zoning Commission is the best group of people they have had in years, so I am proud to say I was a part of that group. Good luck and I hope you find another Commissioner to fill my position soon.

Since this experience has been such a positive one, in the near future, I will plan to run for a Planning and Zoning Commissioner for the City of Sitka.

Regards,

Victor Weaver
