### Which Boards would you like to apply for?

Providence Valdez Medical Center Health Advisory Council: On Agenda

---

### How did you learn about this vacancy? \*

Word of Mouth

---

### Interests & Experience

## Why are you interested in serving on a City of Valdez board or commission?

---

I am interested in serving on the Health Advisory Council because I am invested as a faith leader in this community of Valdez. I moved to Valdez recently to serve as pastor of Epiphany Lutheran-Episcopal Church and I want to be engaged in this community. Serving on the Health Advisory Council is a great fit for me because part of my vocation is to be present to people in the midst of trauma. Everyone stepping into our health center holds some sort of loss, whether it's loss of independence, health, or anticipatory grief. I am committed to attending to the needs of this community as it relates to the Providence Valdez Medical Health Center.

---

## Please outline your education, work, and volunteer experience which will assist you in serving on a City of Valdez board/commission.

---

Before moving to Valdez, I spent a year working as an interfaith hospital chaplain resident which gave me immense amount of experience with the medical field. I was a part of two administrative management councils while serving at the hospital and was able to lead a few seminars on empathetic listening with nursing managers and nursing staff. My theological education has been focused on trauma informed pastoral care and my framework as a faith leader is to meet people where they are at. As a pastor here in the Valdez community, I am engaged in a variety of groups and have a sense of what is happening in the community that can be useful in serving on this Health Advisory Board. I am greatly invested in being a part of this beautiful and generous Valdez community and I am confident that my qualifications, energy, and commitment will be served well in this role.
