

Nicole,

My comments mirror Marcie's. Defining the boundaries as well as placing gravel are things Public Works would like to see also. If the new owner could accomplish these things it could help with the problem of tenants parking in the street and impeding snow removal operations.

Thank you,

Rob Comstock

Public Works Director

For the Property owner to utilize a portion of the South Meyring Park Strip for resident parking, it would be imperative that they provide a designated boarder (parking pin downs) at the North and West Sides of the parking area and grade the area to direct drainage of the parking area to the nearest cul-de-sac without allowing drainage to enter the park strip.
