TEMPORARY	—	HOW LONG	—
PERMANENT	X		

office@SWPILOTS.NET

Please answer the following questions:

How will the proposed use conform to the present and future development of the area? What will be its effect on present and future development?

The permitted use of the proposed marine service and repair facility would provide proper space for maintenance and repair providing the convenience of expansion on property currently owned by Berth II, Inc. It is centrally located, provides a private area for the facility, off-street parking and loading area, and would not affect or add to the current traffic conditions or patterns.

Why is there a need in the area for the Conditional Use requested? Wherever possible, substantiate this statement with factual data.

The proposed repair facility conforms to the development and continuation of a cohesive Central Business District and supports the local economy in one central location. Currently there are three pilot boats moored locally year round and providing a facility for their maintenance and upkeep is paramount.

Why is this site especially suited to the Conditional Use proposed?

The site is conveniently located to the Valdez Small Boat Harbor and to other local businesses for goods and services to support the maintenance and repair of the pilot boats. The property is already owned by Berth II, Inc.

Why would the Conditional Use have no detrimental effects on surrounding property and uses?

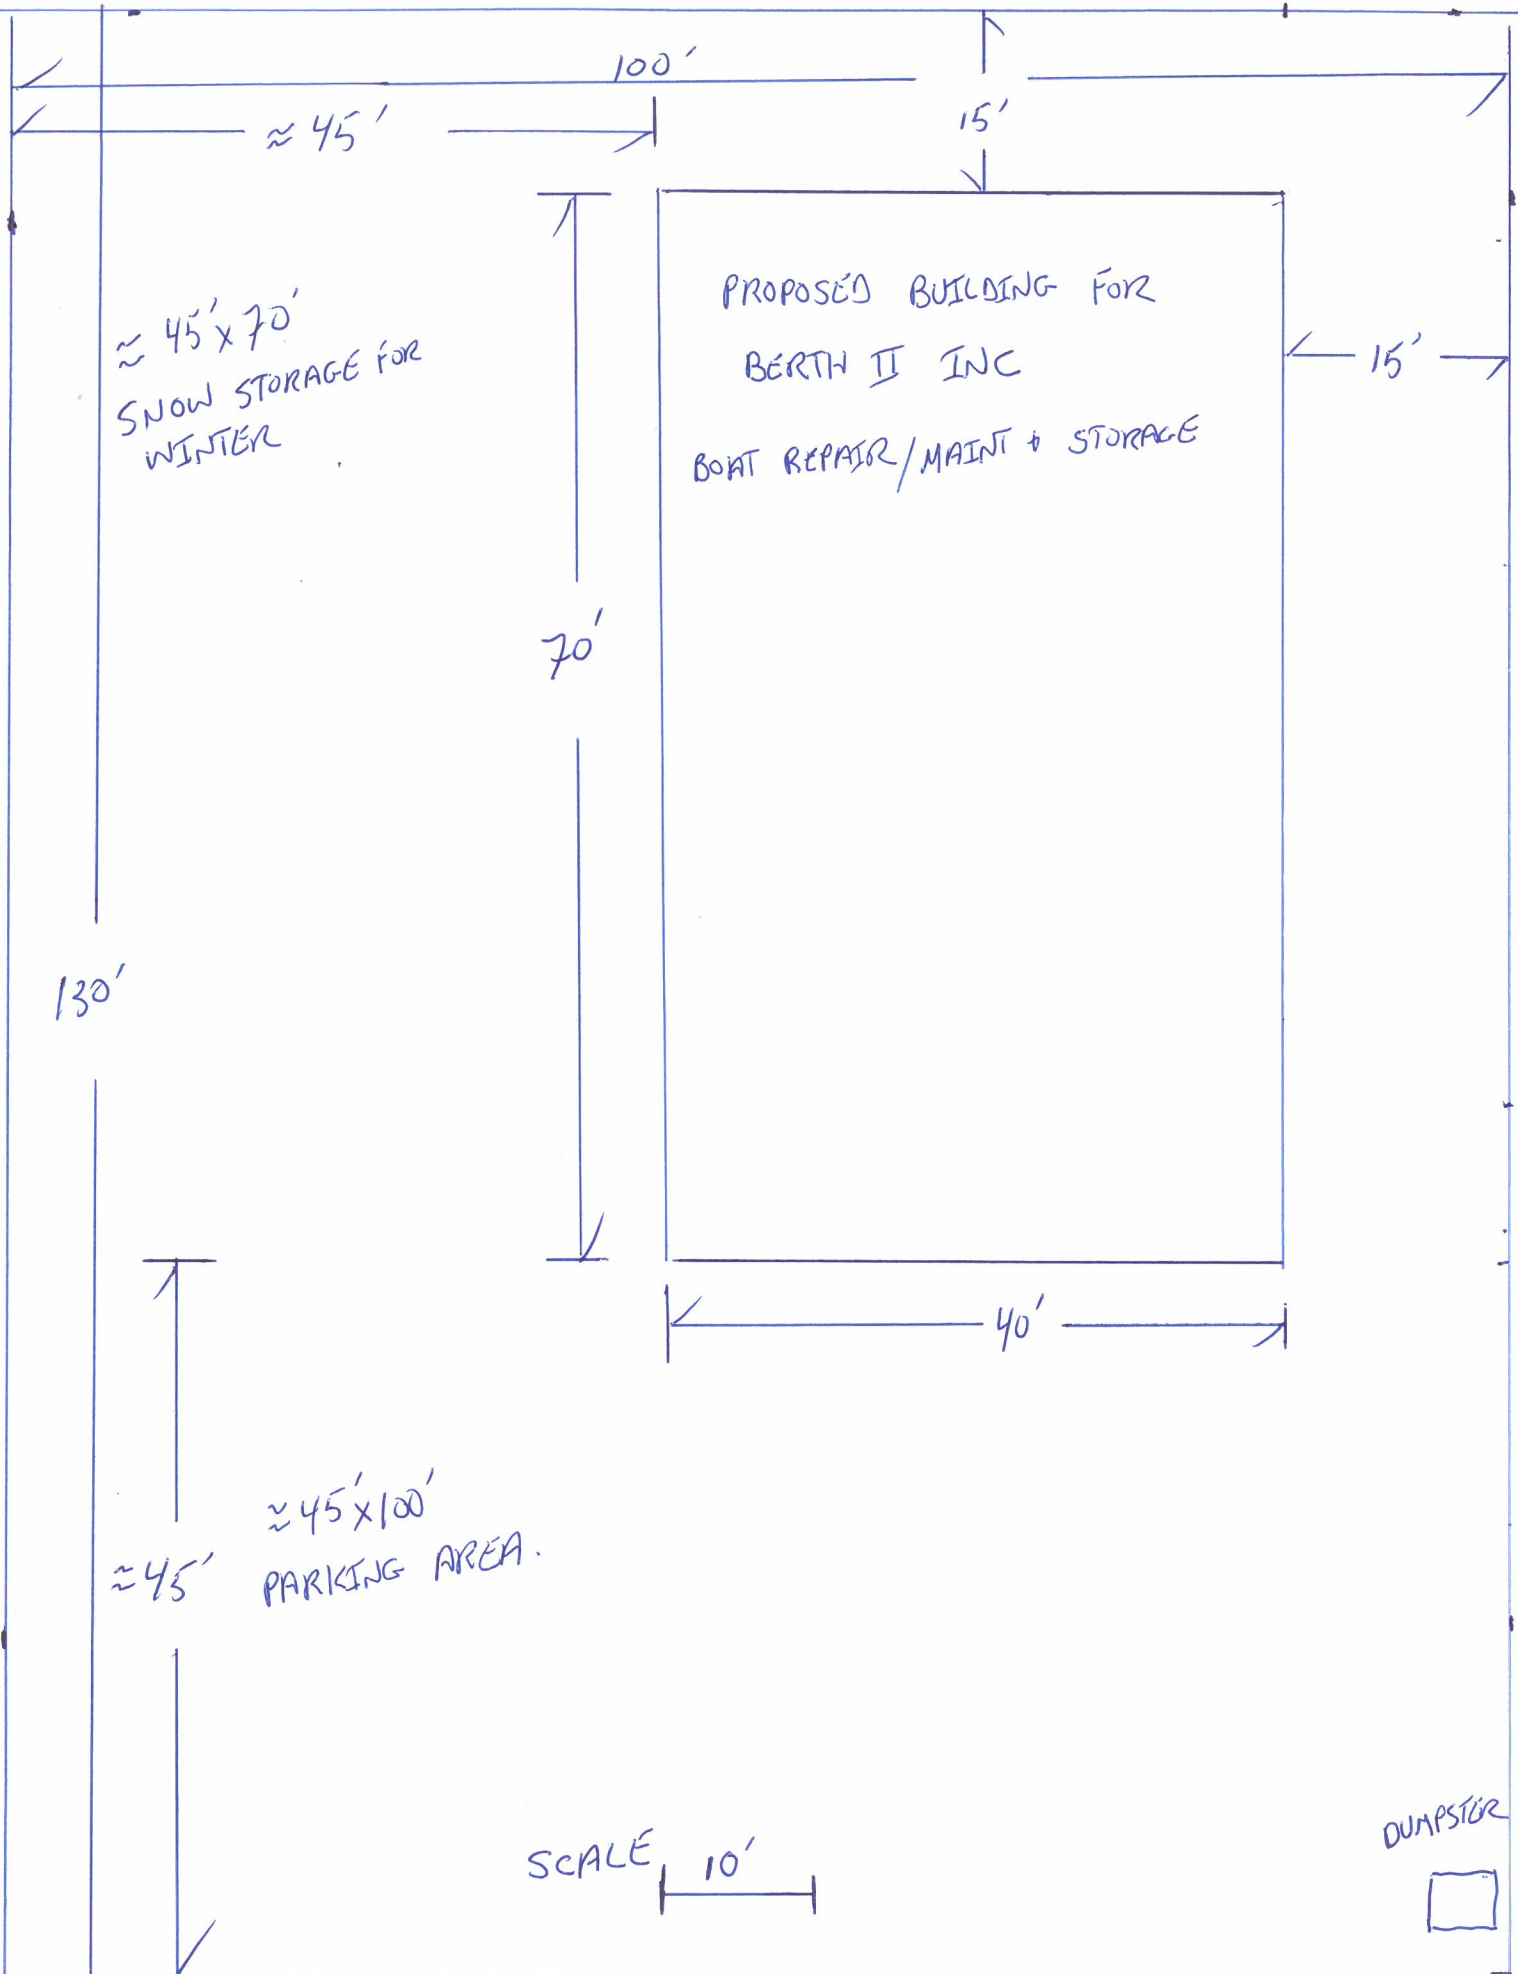

The repair facility would be self-contained, provide off-street parking and loading areas and would not contribute to additional street traffic or change existing traffic patterns.

Attach or include any other information you feel is relevant to this application

Subject: ANS shop waste plan

Alaska Nautical Services waste plan.

1. ANS will not be storing any drums of oil, hydraulic oil or antifreeze in bulk (55 gal drums)
2. ANS will only have make up oils for Pilot Boats (1 gal jugs) in small quantities.
3. When ANS preforms oil changes on Pilot Boats, oil will be received and disposed of same day at Valdez city bailer.
4. All flammable liquids and aerosol cans will be stored in approved flammable locker.
5. No paint products will be stored in shop, Pilot Boats are not painted and have Blue Seal for bottom paint that needs no maintenance.

Mark Davis

Annie will this work and if you need to fine tune it, that's fine
