Market Area Comments: Site is large for the area, being a hypothetical 100 acre, undeveloped rectangular shaped site about 4 miles north of the Richardson Highway and its confluence with the Valdez Glacier Stream, near Slater Creek and East Peak, southeast of the Valdez town Center. The site has steeply sloping to gently rolling terrain, with limited, seasonal trail access - considered inferior in the market, having limited visibility and no direct access, with Valdez located approximately 120 air miles & 305 road miles east of Anchorage. The site is considered to have a fair location with poor access, no utilities with sloping topo and rocky soils and heavily treed areas surrounding the rectangular site. Limited recent sales data is available in the area due to the relatively small market and subjects sites unique attributes and large size. The majority of vacant lots in the area are heavily treed with good access and views of the surrounding Chugach mountains, with city and state maintained roads providing access and good visibility to the surrounding areas, all superior attributes to the subject. The closest neighborhood is a residential area southeast of downtown Valdez and Robe Lake, considered an average location for residential uses, with no current access and limited development options. The subject's location, access and visibility are considered fair to poor, and the heavily treed site with sloping topography and poor access limit most types of development - full site description to follow.

SITE DESCRIPTION

Dimensions: Rectangular - (approx. 1,110' x 3,942') Site Area: 100 Acres
Zoning Classification: Heavy Industrial Description: industrial development, including heavy manufacturing, shipping terminals, natural resource extraction and other processes or operations which involve one or more of the following: employs large numbers of workers, heavy truck traffic, significant environmental effects..(see addenda for full descr)
Do present improvements comply with existing zoning requirements? ☐ Yes ☐ No ☒ No Improvements
Uses allowed under current zoning: Multiple industrial uses. See addendum page for description of zoning and allowable uses. See City of Valdez zoning description under 17.38 for full description and potential uses - in addenda. The site is vacant and unimproved - we are appraising the vacant land only under a hypothetical assumption that is encompasses 100+/- acres as depicted in documents provided.
Are CC&Rs applicable? ☐ Yes ☐ No ☒ Unknown Have the documents been reviewed? ☐ Yes ☒ No Ground Rent (if applicable) \$ _____ / _____
Comments: No documents provided from the client.
Highest & Best Use as improved: ☐ Present use, or ☒ Other use (explain) Special use facility or recreational uses that meet zoning criteria. No soils report available for review, heavily treed areas, steeply sloping terrain - assume site is developable, however limited current / seasonal access to site.
Actual Use as of Effective Date: Vacant Land Use as appraised in this report: Vacant Land
Summary of Highest & Best Use: Subject consists of a remote 100 Acre / 4,356,000 SF site with limited / seasonal access, located approx. 4 miles north of the Richardson Highway, west of Robe Lake and southeast of the City of Valdez. The zoning allows for multiple uses, with proposed use listed and explained in City of Valdez Resolution #19-19, being for the purposes of a year round mountain recreation facility. Poor access and steeply sloping terrain and heavily treed site limit potential development options - downward pressure on concluded values - unknown soils conditions, limited current access, however good views of the surrounding mountains. We physically inspected the subject on May 4, 2019, traveling / viewing all corners of the site.

Site Comments: The subject consists of a hypothetical 100 acre / 4,356,000 SF generally rectangular shaped remote site located on the outskirts of the community of Valdez north of the Richardson Hwy and west Robe Lake (small residential development), about 6 miles southeast of downtown Valdez, no public utilities, and limited / seasonal gravel trail access, located about 4 miles north of the Richardson Highway in a steeply sloping, heavily treed area, limiting development - considered a remote location. We are valuing the site as if vacant and unimproved. The specific location, sloping topography, lack of access utilities, and overall site attributes put downward pressure on the value - limiting development options and overall marketability. NO SOILS REPORT PROVIDED - limited access, heavy trees and organic overburden and topography ranging from steeply sloping to gently sloping - limiting full development of the site.

Analysis of sale/transfer history and/or any current agreement of sale/listing:
No 36 month prior sale for subject. No sales of comps within the past 12 months discovered. Of note is that the hypothetical subject site is under agreement / resolution with the City of Valdez for purchase from Rydor Enterprises according to City of Valdez Resolution #19-19 - included in the addenda for review.

Larger adjustments and the use of older sales in the analysis was unavoidable, and are typical in this sector of the more rural / remote vacant land market due to lack of market activity, unique property characteristics, access, visibility, size, view, soils, etc., with general and specific locations and overall attributes of sites also playing a role in the value.

Summary of Sales Comparison Approach See comments on the following page for additional comparables, adjustments and methodology.

Overall adjusted sales price of the comparables is an additional good indicator, given weight, with a range of about \$40,000 to \$150,000, average of about \$100,000. The \$/Acre analysis is also overall supportive and relevant, and provides a good adjusted range at \$525/Ac to \$2,644/Ac, overall adjusted average of \$1,215 per acre - both methods / indicators provide good overall support / good indicators.

A concluded value range of about \$100,000 to \$150,000 deemed appropriate, the most probable concluded value toward mid range deemed most appropriate, with reasoning discussed on the following page. Weight was given to the historical sale of the adjoining 100 acres to the same party, however seems to be a slightly high indicator, as the market appeared to be near its peak in 2007/08.

SALES COMPARISON APPROACH

Discussion and Summary of Sales Comparison Approach:

We had to expand our search parameters (date of sale, site size, zoning, location, access) due to the lack of recent sales of similar large lot properties in the Valdez market, however after adjustments, the data provide good data for analysis and a relatively tight range of indicators results, with support from both the price per Acre and overall adjusted sales price of the comparables. The respective comparable sites have superior topographical and access attributes, and larger adjustments to reflect superior site characteristics to reflect the subjects lack of access and inferior site attributes (steep, limited utility of use, remote nature of site) were necessary. The overall adjusted SP of the comparables and price per acre indicators both provide good indicators, and due to the varying sizes of the comparables, the overall adjusted \$/AC is considered a slightly weaker indicator, however both are considered overall supportive indicators for a value range of the subject site. The subject is representative of a value toward the middle of the range of the indicators - after adjustments, considering all of the attributes and remote nature lacking access - affecting development opportunities. A concluded value range of about \$100,000 to \$150,000 deemed appropriate, the most probable concluded value toward mid range deemed most appropriate, with reasoning discussed on the following page. Weight was given to the historical sale of the adjoining 100 acres to the same party, however seems to be a slightly high indicator, as the market appeared to be near its peak in 2007/08.

Final Concluded Value of \$135,000.

CITY OF VALDEZ, ALASKA

RESOLUTION #19-19

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF VALDEZ, ALASKA AUTHORIZING THE NEGOTIATED SALE OF 100 ACRES WITHIN TRACTS A & B, ASLS 79-116 TO RYDOR ENTERPRISES, LLC.

WHEREAS, the City of Valdez is the Owner of the following real property described as Tracts A & B, ASLS 79-116; and

WHEREAS, Rydor Enterprises wishes to purchase 100 acres of land within Tracts A & B of ASLS 79-116 for the purposes of development of a year-round mountain recreation facility; and

WHEREAS, Rydor Enterprises is willing to pay the fair market value of the property; and

WHEREAS, Chapter 4.04.070 of the Valdez Municipal Code provides for the City Council to negotiate the sale of City owned real property; and

WHEREAS, at their public meeting on February 13th, 2019, the Planning and Zoning Commission approved a recommendation to City Council to sell this 100 acre parcel to Rydor Enterprises via negotiated sale.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF VALDEZ, ALASKA, that:

Section 1: The City Manager of the City of Valdez, Alaska is authorized to negotiate the sale of 100 acres within Tracts A and B, ASLS 79-116 at the fair market value which will be determined by an independent appraisal. Purchaser may arrange a secondary independent appraisal at their own expense. The results of the secondary appraisal may be submitted to the City for consideration in determination of fair market value of the property. If the secondary appraisal returns a value less than the original appraisal, the average of the two appraisals may be used to determine the fair market value and sale price of the land.

Section 2: In conformance with the Property Management and Procedures, upon approval of the land sale by City Council, purchaser is required to submit a prorated deposit in the amount of \$1,500 as down payment for the cost of the appraisal. Any unused funds remaining may be applied to the purchase price. Payments of the deposit must be made within 15 business days of the approval of the land sale by City Council. No deposit is required for the cost of the survey, as it has already been conducted, provided to the City, and paid for at the purchaser's expense. No deposit is required for the cost of the Phase 1 environmental assessment as it is currently in progress at the purchaser's expense.

Section 3: Purchaser will sign a purchase agreement with the City of Valdez within 15 business days of receipt of the appraisal of the subject property.

Section 4: In conformance with the Property Management Policies & Procedures, upon signing the purchase agreement, purchaser is required to submit a deposit toward the purchase price in an amount equal to ten percent (10%) of the fair market value as determined by the City.

Section 5: Upon receipt of the 10% deposit, the balance due on the transaction, plus any additional costs associated with the appraisal must be paid in full within 120 calendar days of the date the deposit is received.

Section 6: Failure of purchaser to comply with (2) through (5) above will constitute the purchaser exercising his option to terminate this agreement. Should purchaser terminate this agreement, purchaser will remain responsible for all costs incurred pursuant to this agreement.

Section 7: It is the intention of Rydor Enterprises to use this land for acquiring a lease of adjacent DNR land to develop a year-round mountain recreation facility. If the intended use of the land is shown not to be viable, purchaser may develop the land for use in conformance with existing zoning requirements in place at the time. The land may also be subdivided in conformance with the processes outlined in Valdez Municipal Code.

Section 8: Upon approval, this resolution must be posted in the office of the City Clerk for 30 days prior to finalization of the sale.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF VALDEZ, ALASKA, this 2nd day of April, 2019.

CITY OF VALDEZ, ALASKA

RESOLUTION 07-20

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF VALDEZ, ALASKA AUTHORIZING THE NEGOTIATED SALE OF 100 ACRES WITHIN TRACTS A & B, ASLS 79-116 TO RYDOR ENTERPRISES AND REPEAL OF RESOLUTION 06-72

WHEREAS, Resolution No. 06-72 authorizing the negotiated sale of 27 acres within Tracts A and B, ASLS 79-116 to Rydor Enterprises was approved by the City Council on August 21, 2006; and

WHEREAS, Rydor Enterprises allowed the authorization terms of Resolution No. 06-72 to expire and is now requesting new terms and conditions of the sale; and

WHEREAS, the revision of text amending the terms and conditions of the negotiated sale requires repeal of Resolution No. 06-72 and re-enactment of a new resolution establishing new terms and conditions; and

WHEREAS, the City of Valdez is the owner of the following real property described as Tracts A & B, ASLS 79-116; and

WHEREAS, RYDOR Enterprises wishes to purchase 100 acres of land within this parcel for the purposes of obtaining a lease or land purchase of adjacent land from the State of Alaska Department of Natural Resources for future development of a year-round mountain recreation facility; and

WHEREAS, RYDOR Enterprises is willing to pay the fair market value of the property; and

WHEREAS, the Planning and Zoning Commission has determined that it is a good and proper use of this land to allow Rydor Enterprises to use the property to obtain a land lease or purchase of adjacent land from DNR to develop a year-round mountain recreation facility; or if a year-round mountain recreation facility is not feasible then whatever use the private sector deems most prudent based on the zoning of the area; and

WHEREAS, Chapter 4.04.050 of the Valdez Municipal Code provides for the City Council to negotiate the sale of City owned real property.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF VALDEZ, ALASKA that:

Section 1: The City Manager of the City of Valdez, Alaska is authorized to negotiate the sale of 100 acres within Tracts A and B, ASLS 79-116 at the fair market appraised value which is determined to be \$150,000 based on the August 14, 2006 appraisal by Appraisal Company of Alaska.

APPRAISAL AND REPORT IDENTIFICATION

This Report is one of the following types:

- ☒ Appraisal Report (A written report prepared under Standards Rule 2-2(a) , pursuant to the Scope of Work, as disclosed elsewhere in this report.)
- ☐ Restricted Appraisal Report (A written report prepared under Standards Rule 2-2(b) , pursuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use by the specified client or intended user.)

Comments on Standards Rule 2-3

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Reasonable Exposure Time (USPAP defines Exposure Time as the estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.)
My Opinion of Reasonable Exposure Time for the subject property at the market value stated in this report is: 6-8 months

Comments on Appraisal and Report Identification

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, October 27, 1994.)

* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.
2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The appraiser has made no survey of the property.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.
6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
7. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

CERTIFICATION: The appraiser certifies and agrees that:

- 1. The statements of fact contained in this report are true and correct.
- 2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- 3. Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- 4. Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- 5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- 6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- 7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- 8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- 9. Unless otherwise indicated, I have made a personal inspection of the interior and exterior areas of the property that is the subject of this report, and the exteriors of all properties listed as comparables.
- 10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).
