Re: Hypothetical 100 Acre Parcel, Tract A & B, ASLS 79-116

Dear Paul,

The proposed 100 Acre Parcel of Tract A & B, ASLS 79-116 has areas within flood zone AE and flood zone X. The parts of the parcel that are in the unshaded X zone are outside of the special flood hazard area (SFHA). The section of the parcel that is within flood zone AE is inside of the SFHA. Any development in the area zoned AE will require a floodplain development permit and structures will be required by the National Flood Insurance Program (NFIP) to carry flood insurance. For development in the areas outside of the SFHA, The City of Valdez recommends that owners carry flood insurance, but insurance policies should be rated for a structure within zone X.

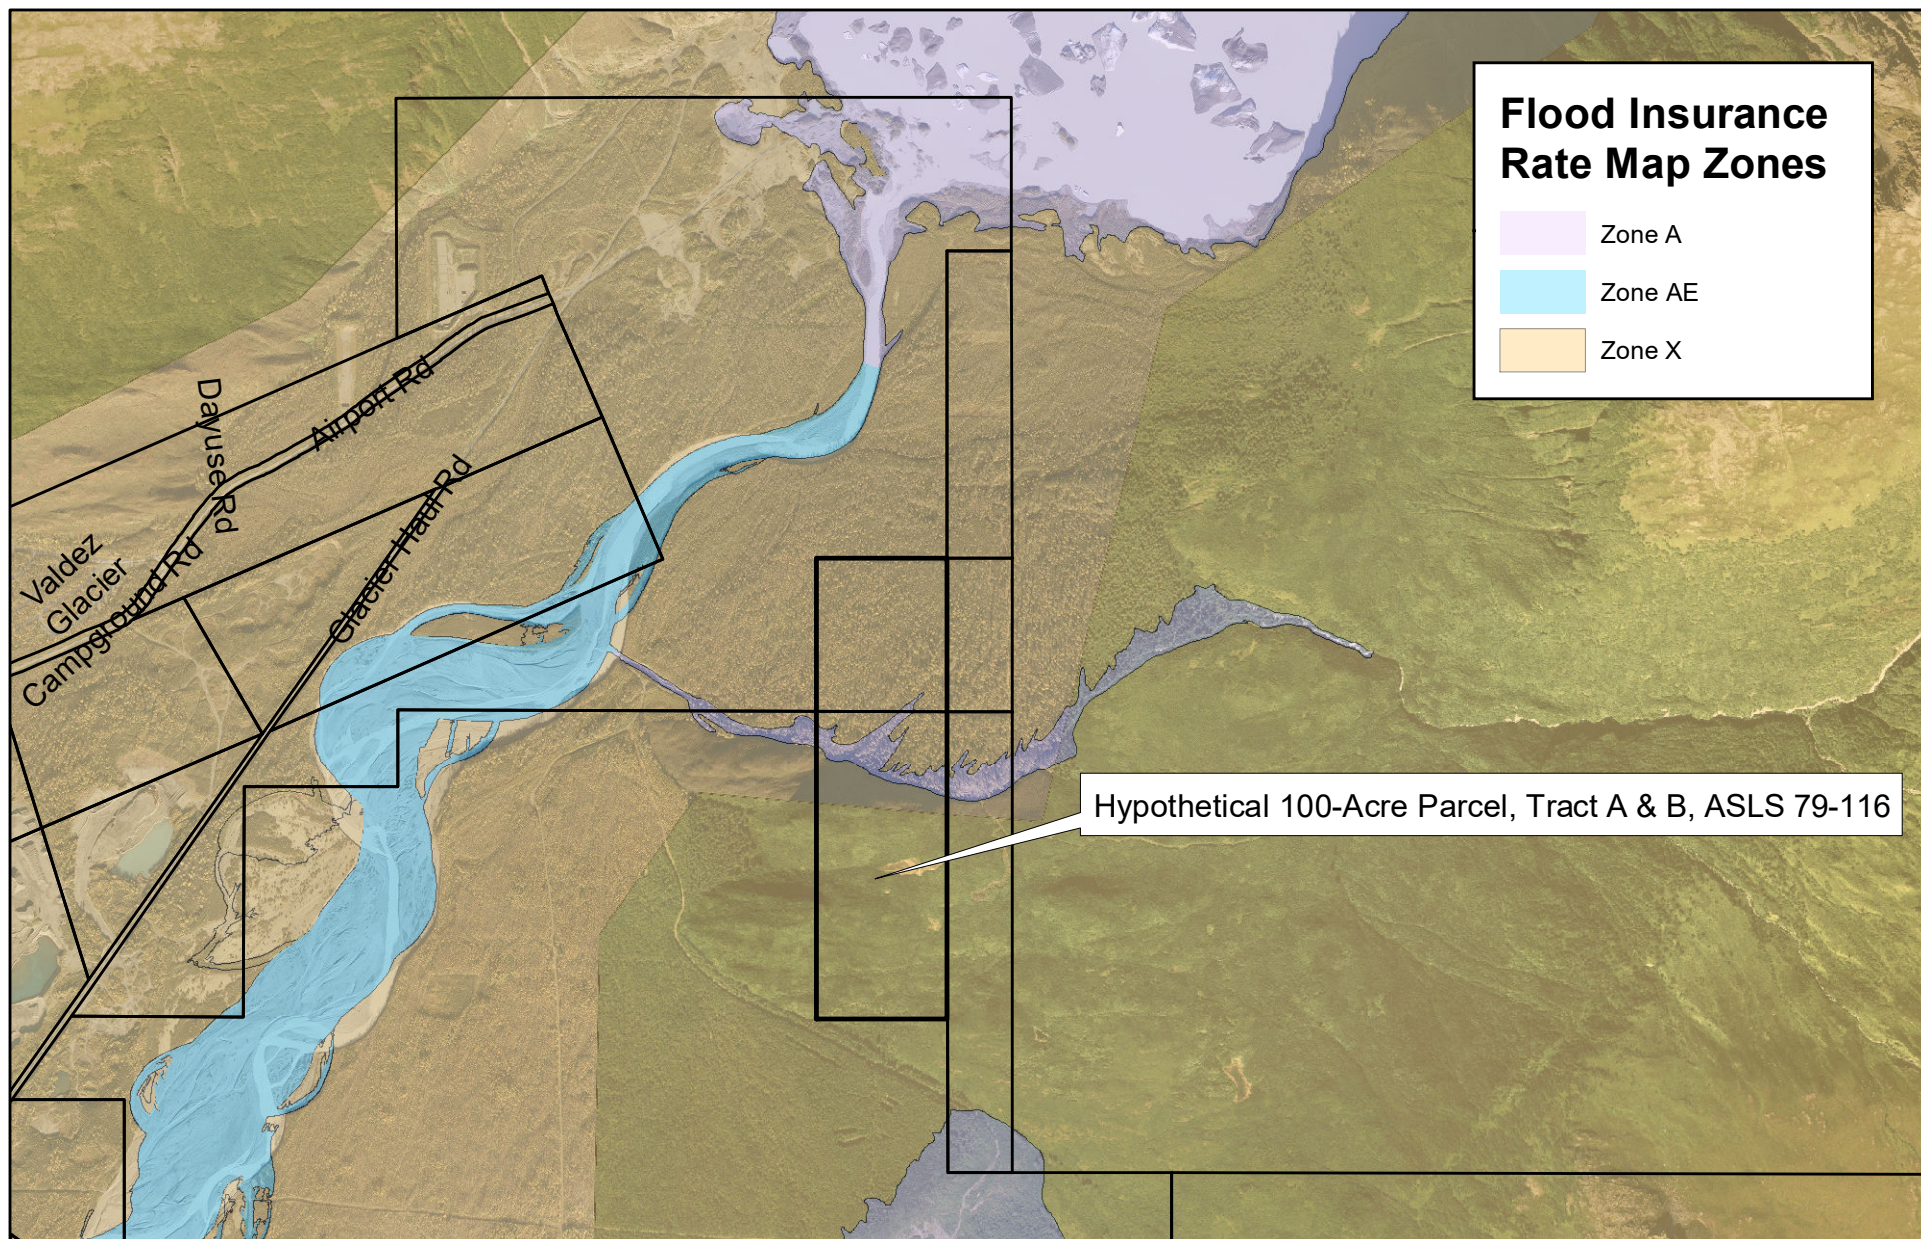

This flood zone determination was made using the FIRM, effective January 3, 2019, referencing panel number 0200940168D.

Included with this letter is a map showing the location of the hypothetical 100 Acre Parcel, Tract A & B, ASLS 79-116 with an overlay of the FEMA flood zones.

Sincerely,

Kate Huber, CFM
