

# PLEASE TAKE OUR SURVEY

We want to understand how Valdez residents experience flooding and what, to you, are the most important considerations in deciding how to mitigate that flooding. The results of this survey will directly inform a feasibility study later this summer, the first step in planning specific mitigation projects for the Lowe River over the next year. Please, will you take eight minutes to share your thoughts?

**Your input is critical.** The survey will run June 15 - July 10.

**8 minutes** of your time  
**will make a difference**

**You can access the survey in 3 ways:**

- 1** Visit [www.valdezflooding.com/survey](http://www.valdezflooding.com/survey)
- 2** Scan this bar code with your smart phone camera 
- 3** Leave a voicemail at 907-865-1374 to request someone call you to administer the survey over the phone.

# VALDEZ FLOODING

How are you impacted?

---

The City of Valdez wants to hear about your experiences  
to inform our next steps with flood mitigation.
