Dear Nick,

It has been an honor to work with you and the City of Valdez staff and community on your **Parks and Recreation Master Plan**. This plan is an important step for the future of parks and recreation in Valdez, and we take pride in providing the community engagement, data collection, analysis, and recommendations to help meet your needs, now and for the future. We also recognize the economic realities of today's world and the need to wisely invest your limited resources. We appreciate the trust you placed in GreenPlay and our team members.

One of the pleasures of our job is getting to know the communities we work in and identifying the unique vision each one has when it comes to leisure and recreation needs. We hope that this effort provides the momentum to carry forward in providing services for residents of, and visitors to, your community. At this point, you should have all deliverables from the project, including the final plan, the presentations, and all appendices and staff resource documents.

We live by our adage, "*GreenPlay Clients for Life*", so I hope you will keep us in mind with any questions or needs as you go forward. Our utmost concern is your ability to implement the recommendations of your plan. We remain available to talk about any challenges you may encounter. We also want to let you know that we are ready and able to assist you in other ways in the future should the need arise. As you may know, GreenPlay's services include, among others:

- ✓ Master Planning and Strategic Planning
- ✓ Pricing and Cost Recovery Philosophies and Policies
- ✓ Management and Marketing Plans
- ✓ Partnership and Sponsorship Policies
- ✓ Business Plans and Feasibility Studies
- ✓ Public Engagement, Mobile Optimized Engagement (MOE), and Meeting Facilitation
- ✓ Incorporating Healthy Community Initiatives into your planning efforts

Once again, I thank you for using GreenPlay, LLC, and we wish you success in your future efforts. Should you have further questions, please feel free to contact me.

Sincerely,
