Ms. Sweirk said the home has survived the test of time for 11 years, was 99% finished, it just needed toilets and sinks installed. Ms. Sweirk said it had survived the recent 6.9 earthquake that year with the roof fully loaded with snow and wind speeds of 96 mile per hour. She said all the doors opened smoothly and no cracks were in the sheetrock. Ms. Sweirk said she was requesting a certificate of

occupancy permit so they could legally live in their home. Ms. Rollenhagen addressed Tabitha and told her to speak to Mr. Jay Yunker, the Building Inspector. Mr. Josh Swierk, Valdez resident, then addressed the Commission and explained the issues they were having and explained that in order to comply with the requests they would have to tear the walls of the house down. Mr. Swierk said the areas they would need inspected to receive their certificate of occupancy were impossible to get to, and said the inspection paperwork was not in the file in the Planning Department. Nate Smith and Ryan McCune presented a slide presentation on behalf of Rydor Enterprises. Commissioner Kipar stated that the original land sold over 12 years ago, and that no development had occurred since and did not bode well for their record. He said the presentation looked good but questioned where Rydor Enterprises was going to acquire funds for their project. He emphasized that he wanted to insure the City would not be selling the 200 acres of land that would remain undeveloped. Commissioner Kipar wanted a condition be added to the approval negotiation to require them to develop the land. Discussion continued.

### V.COMMISSION BUSINESS FROM THE FLOOR

Commissioner Kipar stated that investing in the Valdez was good and that he felt the City should support Rydor Enterprises. Commissioner Blehm stated that not all of the agenda information was appearing on the City website. Commissioner Wade commented on the comprehensive plan revision process and stated that Rydor Enterprises should not be held up due to the lack of an adopted comprehensive plan. Commissioner Wade also brought up the number of abandoned vehicles in the community and asked what the City intended to do about them. Commissioner Gondek requested that all members of the meeting speak one at a time, for clarity of communication and said he would make sure everyone had a chance to speak.
