Commissioner Wade said she had no problem with approval. She asked if they were going to pave some of the streets they hadn't done last year.

4. Approval of Recommendation to City Council to Authorize a Gravel Lease for Mega Trucking, LLC on a Portion of Tract A, ASLS 79-11 (2651 Richardson Highway)

MOTION: Commission Member Reese moved, seconded by Commission Member Goudreau to the Commission recommendation will be reported to City Council for consideration during their discussion regarding approval of the gravel lease application from Mega Trucking, LLC on a Portion of Tract A, ASLS 79-116 (2651 Richardson Highway). The motion carried by the following vote after the following discussion occurred.

Commissioner Goudreau had no comments on this.

Commissioner Wade said she was concerned about the size of the area being too great to lease to one applicant. She noted that Valdez had limited areas for gravel extraction, and was concerned about tying a valuable area up with one lessee.

Acting Chair Hasse asked Commissioner Wade if this was a concern that would prevent her from supporting the recommendation.

Commissioner Wade said she was still in favor of approval, she just felt the Commission should consider that other parties might be interested in extraction in the area.

Acting Chair Hasse asked Ms. Huber if this was a concern that was shared by the City. Ms. Huber replied that the Commission voted to approve a conditional use permit for gravel extraction with a required buffer, which added to the lease area. She added that she would be forward Commissioner Wade's comments to the City Council.

Commissioner Blehm said he was uncomfortable with recommending approval of the twenty-year year lease term requested by the applicant. He felt a ten-year term with renewals after that would be suitable. He also asked if it was acceptable for the Commission to discuss an email with comments the Commission had received from Mr. Roger Kipar.

Ms. Huber said that Mr. Kipar had requested his comment be read aloud at the meeting for the record. Acting Chair Hasse asked Ms. Huber to read the comment aloud.

Ms. Huber read Mr. Kipar's comment out loud. He stated that he had applied for use of the same area that was being considered for lease to Mr. Passin, and been denied. He said he had emailed the Planning Department to ask why there were not the same concerns from city staff and had not heard a response. Mr. Kipar also made reference to the minutes of a Planning & Zoning Commission meeting on September 12, 2018 that discussed a different conditional use permit application.

Commissioner Blehm said he was not sure what to make of Mr. Kipar's comments. He said he did not feel the Commission had any role to play in corrective action if Mr. Kipar felt he was wronged.

Acting Chair Hasse asked Ms. Huber if this was the same lot Mr. Kipar had been denied a CUP for gravel extraction for. Ms. Huber replied that her understanding of the previous application was that it was for the 800 Glacier Haul road pit, adjacent to Glacier Haul Road. She added that the same concerns about gravel extraction along Glacier Haul Road were expressed by staff in the Mega Trucking agenda statement as well. Acting Chair Hasse said he remembered it that way as well.

Commissioner Reese said he agreed with Commissioner Blehm. He said that if Mr. Kipar feels he was done wrong, he should follow up in this own manner but that the Commission did not have a role in that.

Commissioner Blehm reiterated that he was uncomfortable with the twenty-year lease period requested. Acting Chair Hasse noted that the staff recommendation for approval was for five years, as the city prefers to do leases for no longer than five years.

Commissioner Reese asked if the Commission was voting on a twenty-year term or a five-year term. Acting Chair Hasse said they were voting on the five-year staff recommendation. He said they would have to amend it if they wanted anything different.

Commissioner Reese said he thought a large-scale operation like Mr. Passin was suggesting was going to take more time to develop than five years. He suggested the compromise of a recommendation of fifteen years.

Acting Chair Hasse said the Planning Commission should recommend what they thought best for the community.

Commissioner Reese made a motion to extend the term to fifteen years. Commissioner Goudreau seconded the motion. Commissioner Goudreau said he thought five years was way too short to accomplish what Mr. Passin wanted to do.

Commissioner Wade said she wouldn't vote against a fifteen-year term but would prefer a ten-year term.

Acting Chair Hasse said he felt it was in the public's best interest to lease the property for a gravel extraction operation.

Mr. Jesse Passin of Mega Trucking, LLC, applicant, said he felt with the investment in materials, labor and equipment needed upfront for his proposed extraction operation it was vital for him to secure a lease for longer than fifteen years. He said he did not want his business to be subject to the whims of Council. Mr. Passin said he would appreciate if they could secure a twenty-year lease, so he didn't have to invest a large sum of money not knowing whether or not City Council would renew a lease for him in the future.

Acting Chair Hasse invited a vote on the motion to amend the recommended lease term from five years to fifteen years. The motion failed by the following vote.

5. Approval of Recommendation to City Council to Establish a 60 Foot Wide Public Access Easement Off the West and Northern Boundary of privately owned Parcel A-1 of Tract A. ASLS 79-116

MOTION: Commissioner Blehm moved, seconded by Commissioner Wade, to approve a recommendation to City Council to dedicate this easement, the Planning & Zoning Commission should determine whether or not dedicating public land for this purpose is in the public interest. If the Commission decides that this public access easement is in the public interest, they should approve a recommendation to Council to approve the dedication of this access easement. Otherwise, no such approval is advised. The motion carried by the following vote after the following discussion occurred.

Acting Chair Hasse said Commissioner Reese was stepping down from the dais to join the audience because he is one of the applicants of the discussion item.

Commissioners Wade, Blehm, and Goudreau were in favor of approval.

Acting Chair Hasse asked for clarification on the proposed 60' easement depicted.

Mr. Paul Nylund, Senior Planner, clarified the green line was the one that represented the easement, adjacent to the Rydor property.

There being no further discussion on the item, Acting Chair Hasse invited a vote on the motion.
