ITEM TITLE:

Approval of a Recommendation to City Council to Authorize a Lease with Crowley Fuels, LLC for a 6,230 Square Foot Portion of USS 495 Tidelands (North Fuel Dock)

SUBMITTED BY: Nicole Chase, Planner

FISCAL NOTES:

Expenditure Required: N/A

Unencumbered Balance: N/A

Funding Source: N/A

RECOMMENDATION:

Approve a recommendation to approve a lease with Crowley Fuels, LLC for a 6,230 square foot portion of USS 495 Tidelands (North Fuel Dock)

SUMMARY STATEMENT:

The City of Valdez entered into a lease for a 6,230 square foot portion of USS 495 Tidelands, with Westmark Hotels, Inc. in 2001 for twenty-one years, expiring July 31, 2022 with six additional, five-year options to renew. This lease was partially assigned to separate out the fuel dock portion and assign it to Valdez Fuels, LLC in 2002. Valdez Fuels was acquired by Crowley Fuels, LLC, and the lease was assigned to Crowley in 2012.

The lease was amended via resolution #22-76 to extend the term of the lease, expiring July 31, 2024. The lease has been in holdover with all terms and conditions continuing on a monthly basis since the expiration while the recommended new lease terms were negotiated between staff and Crowley.

Crowley Fuels, LLC has applied to continue to lease this property for use of fuel dock. The new lease is proposed for an initial term of 10 years, with four five-year options to renew the lease. The rent for this lease is subject to fair rental value pursuant to Valdez Municipal Code 14.04.020 which is determined to be 10% of appraised value annually which amounts to \$1,500.00 annually for use of this property according to the most recent appraisal for the location. In addition to the baseline annual rent, staff proposes that lessee pay a fuel surcharge of \$00.04 cents per gallon of fuel sold. The lessee should provide lessor access to meters and other records necessary to determine the annual volume of fuel sold at this location. Staff proposes this negotiated rate since the fair rental value of \$1,500.00 does not adequately capture the true value of this property. The fuel surcharge would be based on annual throughput of fuel in 2024 for the first five years of the lease and adjusted based on the most recent fuel flow every five years following.

Another notable proposed change for this lease is that it sets forth proposed minimum operating hours in response to community feedback regarding call-out fees, and hours of operations. The draft lease establishes the following minimum operating hours:

“LESSEE shall use the Property for fueling related purposes and for no other purposes. LESSEE shall not conduct any illegal activities on the Property or maintain any nuisances on the Property. LESSEE shall provide fueling services at the South Fuel Dock Premises or at the North Fuel Dock as depicted on Exhibit B so long as LESSOR is leasing the North Fuel Dock from LESSOR as follows:

- (a) November 1 - April 13 (by Appointment Only)
- (b) April 15 - Thursday before Memorial Day, 7 days a week from 9am-5pm
- (c) Friday of Memorial Day weekend - Labor Day

South Fuel Dock - 7 days a week from 6am-10pm

North Fuel Dock - 7 days a week from 10am-6pm

- (d) Day after Labor Day - October 15, Monday-Friday 9am-5pm”

The proposed lease sets forth that at least one of the two Crowley fuel locations in the Small Boat Harbor needs to maintain these hours at a given time.

Pursuant to Valdez Municipal Code, 14.04.090, the Planning and Zoning Commission will also vote on a recommendation to approve this lease.

All other terms and conditions of the proposed lease agreement follow the standard lease language applied to all tideland lessees. Pending Council approval, staff will work with the City Attorney and Crowley Fuels to execute a new agreement.

Additional Response for Sections 8 and 11

Crowley has a longstanding record of providing superior levels of customer service at Alaska ports and harbors. Since 1953, Crowley has provided unique solutions to petroleum distribution, and today, with 18 tank farms in Alaska and a storage capacity of nearly 30 million gallons, we are a leader in the Alaska fuel industry.

Since 1989, Crowley has reliably served the City of Valdez and surrounding communities with local delivery of marine, aviation, and motor vehicle fuels, heating oil for homes and businesses, lubricants, and propane. Our local predecessor, Valdez Fuel Company, built our first fuel dock (the “South Dock”) in Valdez in 1999, and Crowley acquired a second fuel dock (the “North Dock”) in the Valdez harbor in 2002. The South Dock fuels vessels with over a 10,500-gallon fuel capacity and is a U.S. Coast Guard regulated facility subject to Code of Federal Regulation (CFR) compliance requirements of 33 CFR Part 154. For over a decade, we have successfully operated both docks, providing fuel for a range of customers, including the cruise industry, commercial fishing fleets, the U.S. Coast Guard, small-charter fisherman, and recreational fisherman and boaters. Crowley has continuously met the growing needs of the boating community by supplying over 800,000 gallons of fuel directly into vessels annually at these facilities. For more than a decade, Crowley has built a proven record of maintaining its existing Valdez dock facilities in a safe, accessible, and customer-focused manner to meet the community’s needs.

Long Term Operations

Crowley has a long history of providing excellent customer service and enjoys a positive reputation in the Valdez community with our competitively priced fuel products and responsive service. We are keenly aware of the boating community’s needs and staff our existing facilities accordingly. Our docks are staffed from 6 a.m. to 10 p.m. during the long days of the peak summer season and seasonally adjust based on demand through the shoulder seasons and winter months. Crowley ensures there is always someone on call to respond to after-hours fuel needs and constantly looks for ways to improve reliability and service.

Crowley’s Valdez workforce and management are all members of the local community. Each summer season, Crowley recruits local high school graduates or returning college students to operate the North and South fuel docks. We are pleased to provide steady, full-time seasonal employment to young people in the community.

Environmental/Regulatory

All federal, state, and local regulations concerning aboveground storage tanks will be followed, including spill prevention control and countermeasure regulations. Crowley is proud of our record of meeting all

regulatory requirements for the two marine fuel docks we currently operate in the Valdez harbor. One of the tenets of Crowley's Safety, Security, Quality and Environmental Stewardship is, "Operate our vessels and facilities in compliance with regulations and best practices." To achieve this goal all Crowley operations are reviewed by the Operations Integrity Department to ensure all requirements are met. Therefore, we understand that although all marine fuel dock activity is regulated by the USCG, including fuel transfer, record keeping, and dock maintenance, the USCG is not the only regulatory agency that has oversight. The USEPA and ADEC also have oversight. In addition to the USCG's annual inspection of our docks and records, which Crowley has always passed, we internally audit our own operations at least twice a year to ensure compliance.

We are cognizant of the fact that there are multiple regulatory agencies with oversight responsibility and Crowley is well versed in meeting the regulatory requirements of multiple agencies. We have in-house subject matter experts who develop environmental compliance policy and procedures for Crowley operations. Crowley also performs job hazard analysis for each new operation/task to ensure that worker and operational risks are identified prior to the operations and that the appropriate controls are put in place to safeguard both personnel and operations.

ITEM TITLE:

Approval of a Recommendation to City Council to Authorize a Lease with Crowley Fuels, LLC for an 8,400 Square Foot Portion of USS 495 Tidelands (South Fuel Dock)

SUBMITTED BY: Nicole Chase, Planner

FISCAL NOTES:

Expenditure Required: N/A

Unencumbered Balance: N/A

Funding Source: N/A

RECOMMENDATION:

Approve a recommendation to approve a lease with Crowley Fuels, LLC for an 8,400 square foot portion of USS 495 Tidelands (South Fuel Dock)

SUMMARY STATEMENT:

The City of Valdez entered into a lease for an 8,400 square foot portion of USS 495 Tidelands, with Max and Betty Wells in 2001 for seventeen years, commencing on December 1, 2001 and ending the last day of November, 2018 with an additional six, five year options to renew. City Council approved an assignment of leasehold interest from the Estate of Betty J. Wells to Crowley Fuels LLC. The lease was renewed with approval of resolution #18-30 for an additional five-year term expiring November 30, 2023.

The lease has been in holdover with all terms and conditions continuing on a monthly basis since the expiration while the recommended new lease terms were negotiated between staff and Crowley.

Crowley Fuels, LLC has applied to continue to lease this property for use of fuel dock. The new lease is proposed for an initial term of 10 years, with four five-year options to renew the lease. The rent for this lease is subject to fair rental value pursuant to Valdez Municipal Code 14.04.020 which is determined to be 10% of appraised value annually which amounts to \$1,500.00 annually for use of this property according to the most recent appraisal for the location. In addition to the baseline annual rent, staff proposes that lessee pay a fuel surcharge of \$00.04 cents per gallon of fuel sold. The lessee should provide lessor access to meters and other records necessary to determine the annual volume of fuel sold at this location. Staff proposes this negotiated rate since the fair rental value of \$1,500.00 does not adequately capture the true value of this property. The fuel surcharge would be based on annual throughput of fuel in 2024 for the first five years of the lease and adjusted based on the most recent fuel flow every five years following.

Another notable proposed change for this lease is that it sets forth proposed minimum operating hours in response to community feedback regarding call-out fees, and hours of operations. The draft lease establishes the following minimum operating hours:

“LESSEE shall use the Property for fueling related purposes and for no other purposes. LESSEE shall not conduct any illegal activities on the Property or maintain any nuisances on the Property. LESSEE shall provide fueling services at the South Fuel Dock Premises or at the North Fuel Dock as depicted on Exhibit B so long as LESSOR is leasing the North Fuel Dock from LESSOR as follows:

- (a) November 1 - April 13 (by Appointment Only)
- (b) April 15 - Thursday before Memorial Day, 7 days a week from 9am-5pm
- (c) Friday of Memorial Day weekend - Labor Day

South Fuel Dock - 7 days a week from 6am-10pm

North Fuel Dock - 7 days a week from 10am-6pm

- (d) Day after Labor Day - October 15, Monday-Friday 9am-5pm”

Additionally, Silver Bay Seafoods-Valdez, LLC approached Community Development staff about potentially constructing a fish transfer pipe under the Lease property and the City Attorney recommended including a non-conflicting use clause in the Lease.

Pursuant to Valdez Municipal Code, 14.04.090, the Planning and Zoning Commission will also vote on a recommendation to approve this lease.

All other terms and conditions of the proposed lease agreement follow the standard lease language applied to all tideland lessees. Pending Council approval, staff will work with the City Attorney and Crowley Fuels to execute a new agreement.

DESCRIPTION AND A SITE PLAN (the description should include the use; value and nature of improvements to be constructed; the type of construction; and, the estimated dates for construction to commence and be completed).

Crowley currently owns and operates the existing 'South Harbor Fuel Dock', a 12' x 70' floating fuel dock with an attached 16' x 20; dock house. The site includes a 55' x 4' ramp with an approach that connects on shore. There are no current plans for additional construction with the exception of maintenance and in-kind replacement and/or parts/materials. Crowley acquired two parcels of adjacent land from Wells Trust in 2018 located at 211 and 213 S. Harbor Drive to facilitate the safe operation of the fuel dock. See attached exhibits C.1 and C.2 for most recent site plans.

6. WHAT IS THE TERM OF THE LEASE DESIRED?

Additional Response for Sections 8 and 11

Crowley has a longstanding record of providing superior levels of customer service at Alaska ports and harbors. Since 1953, Crowley has provided unique solutions to petroleum distribution, and today, with 18 tank farms in Alaska and a storage capacity of nearly 30 million gallons, we are a leader in the Alaska fuel industry.

Since 1989, Crowley has reliably served the City of Valdez and surrounding communities with local delivery of marine, aviation, and motor vehicle fuels, heating oil for homes and businesses, lubricants, and propane. Our local predecessor, Valdez Fuel Company, built our first fuel dock (the “South Dock”) in Valdez in 1999, and Crowley acquired a second fuel dock (the “North Dock”) in the Valdez harbor in 2002. The South Dock fuels vessels with over a 10,500-gallon fuel capacity and is a U.S. Coast Guard regulated facility subject to Code of Federal Regulation (CFR) compliance requirements of 33 CFR Part 154. For over a decade, we have successfully operated both docks, providing fuel for a range of customers, including the cruise industry, commercial fishing fleets, the U.S. Coast Guard, small-charter fisherman, and recreational fisherman and boaters. Crowley has continuously met the growing needs of the boating community by supplying over 800,000 gallons of fuel directly into vessels annually at these facilities. For more than a decade, Crowley has built a proven record of maintaining its existing Valdez dock facilities in a safe, accessible, and customer-focused manner to meet the community’s needs.

Long Term Operations

Crowley has a long history of providing excellent customer service and enjoys a positive reputation in the Valdez community with our competitively priced fuel products and responsive service. We are keenly aware of the boating community’s needs and staff our existing facilities accordingly. Our docks are staffed from 6 a.m. to 10 p.m. during the long days of the peak summer season and seasonally adjust based on demand through the shoulder seasons and winter months. Crowley ensures there is always someone on call to respond to after-hours fuel needs and constantly looks for ways to improve reliability and service.

Crowley’s Valdez workforce and management are all members of the local community. Each summer season, Crowley recruits local high school graduates or returning college students to operate the North and South fuel docks. We are pleased to provide steady, full-time seasonal employment to young people in the community.

Environmental/Regulatory

All federal, state, and local regulations concerning aboveground storage tanks will be followed, including spill prevention control and countermeasure regulations. Crowley is proud of our record of meeting all

regulatory requirements for the two marine fuel docks we currently operate in the Valdez harbor. One of the tenets of Crowley's Safety, Security, Quality and Environmental Stewardship is, "Operate our vessels and facilities in compliance with regulations and best practices." To achieve this goal all Crowley operations are reviewed by the Operations Integrity Department to ensure all requirements are met. Therefore, we understand that although all marine fuel dock activity is regulated by the USCG, including fuel transfer, record keeping, and dock maintenance, the USCG is not the only regulatory agency that has oversight. The USEPA and ADEC also have oversight. In addition to the USCG's annual inspection of our docks and records, which Crowley has always passed, we internally audit our own operations at least twice a year to ensure compliance.

We are cognizant of the fact that there are multiple regulatory agencies with oversight responsibility and Crowley is well versed in meeting the regulatory requirements of multiple agencies. We have in-house subject matter experts who develop environmental compliance policy and procedures for Crowley operations. Crowley also performs job hazard analysis for each new operation/task to ensure that worker and operational risks are identified prior to the operations and that the appropriate controls are put in place to safeguard both personnel and operations.

ITEM TITLE:

Approval of Recommendation of City Council to Adopt a Resolution Authorizing the City Manager to Request Federal Funding for Waterfront Infrastructure Permitting and Design of New Capital Infrastructure Identified in the Valdez Comprehensive Waterfront Master Plan as Sea Otter Park.

SUBMITTED BY: Jeremy Talbott, Ports & Harbors Director

FISCAL NOTES:

Expenditure Required: N/A

Unencumbered Balance: N/A

Funding Source: N/A

RECOMMENDATION:

The Ports & Harbors Director recommends the Commission approve a motion to support City Council Resolution No. _____, authorizing the City Manager to request and pursue federal funding up to \$4,000,000 for the permitting and design of waterfront infrastructure projects.

SUMMARY STATEMENT:

Consideration and Vote on Supporting City Council Resolution No. _____ Authorizing the City Manager to Request and Pursue Federal Funding up to \$4,000,000 for the Permitting and Design of New Capital Waterfront Infrastructure Identified in the Valdez Comprehensive Waterfront Master Plan as Sea Otter Park.

BACKGROUND: The Valdez Comprehensive Waterfront Master Plan highlights strategic infrastructure priorities necessary to sustain and enhance the City's waterfront operations. These priorities include improvements to port facilities, docks, and supporting infrastructure critical to economic development, trade, and transportation.

The permitting and design phase is an essential early step to ensure compliance with environmental and regulatory standards while creating detailed plans for construction. Federal funding opportunities exist to cover these preliminary costs, reducing the financial burden on local resources. The City Council will be considering Resolution No. _____ to authorize the City Manager to request and pursue up to \$4,000,000 in federal funding for these efforts.

DISCUSSION:As Representative stakeholders in the development and future of Valdez's waterfront infrastructure, the Ports & Harbors Commission is being asked to formally support this resolution. Supporting this action aligns with the Commission's Purpose 11.05.010 and 2.56.020 Powers and Duties B The commission shall review and advise the city council on the following areas of public interest and concern: 7 Valdez small boat harbor: development, design, operation, maintenance,

tariffs and fees.

A formal endorsement from the Ports & Harbors Commission would strengthen the City's position in pursuing federal funding and demonstrate community-wide stakeholder alignment on the importance of these projects.

SUGGESTED MOTION: "I move that the Valdez Ports & Harbors Commission support City Council Resolution No. _____, authorizing the City Manager to request and pursue up to \$4,000,000 in federal funding for the permitting and design of new capital waterfront infrastructure as identified in the Valdez Comprehensive Waterfront Master Plan as Sea Otter Park."

CITY OF VALDEZ, ALASKA

RESOLUTION # 25-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF VALDEZ, ALASKA, AUTHORIZING THE VALDEZ CITY MANAGER TO REQUEST AND PURSUE FEDERAL FUNDING UP TO \$4,000,000 FOR THE PERMITTING AND DESIGN OF NEW CAPITAL WATERFRONT INFRASTRUCTURE IN THE AREA IDENTIFIED IN THE VALDEZ COMPREHENSIVE WATERFRONT MASTER PLAN AS SEA OTTER PARK.

WHEREAS, the City of Valdez recognizes the importance of its waterfront as a critical asset for economic development, commerce, transportation, and recreation and

WHEREAS, the Valdez Comprehensive Waterfront Master Plan identifies specific areas for the development and improvement of waterfront infrastructure to support the needs of the community and foster long-term growth and sustainability; and

WHEREAS, new capital waterfront infrastructure is necessary to address current and future needs, including but not limited to improvements in port facilities, commercial docks, and related infrastructure; and

WHEREAS, the permitting and design of such infrastructure is a crucial initial step in advancing these projects and ensuring they are implemented in a strategic and efficient manner; and

WHEREAS, federal funding opportunities are available to support local infrastructure projects that contribute to regional and national priorities, such as enhancing trade, commerce, transportation, and resiliency; and

WHEREAS, securing federal funding will allow the City of Valdez to advance these critical projects without overburdening local taxpayers and ensure alignment with federal and state planning initiatives; and

WHEREAS, the City Manager has the expertise and capacity to manage the application process, coordinate with federal agencies, and administer funds in compliance with all applicable laws and regulations.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF VALDEZ, ALASKA, that

Section 1. The City Manager is hereby authorized to request, apply for, and pursue federal funding opportunities up to \$4,000,000 for the permitting and design of new capital

waterfront infrastructure in the area identified in the Valdez Comprehensive Waterfront Master Plan as Sea Otter Park.

Section 2. The City Manager is authorized to take all necessary actions, including but not limited to preparing and submitting grant applications, providing required documentation, engaging consultants, and coordinating with federal, state, and local entities to secure funding.

Section 3. The City Manager is further authorized to execute any agreements, contracts, or documents necessary to accept and administer awarded funds, subject to review and approval by the City Attorney.

Section 4. This resolution shall take effect immediately upon adoption.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF VALDEZ,
