ITEM TITLE:

Approval of Professional Services Contract with PND Engineering, Inc. for Kelsey Dock and Valdez Container Terminal Load Capacity Analysis in the Amount of \$104,860

SUBMITTED BY: Jeremy Talbott

FISCAL NOTES:

Expenditure Required: \$104,860.00
Unencumbered Balance: \$104,860.00
Funding Source: 401 4500 43200

RECOMMENDATION:

Recommend Contract Approval, PND Engineering.

SUMMARY STATEMENT:

The Ports & Harbors Department requires the engineering services provided by PND Engineers to conduct a Load Capacity Analysis for the John Thomas Kelsey Municipal Dock and the Valdez Container Terminal.

Recent Inspections of both facilities have shown significant ageing in critical marine structures. Conducting a Load Capacity Analysis will establish a safe operating threshold for our customers and ensure we are not overloading the structures past safe operating levels.

The Port has traditionally been known for handling heavy lift cargo and continues to receive customer inquiries for this updated information.
