RECOMMENDATION:

Discussion Item Only

SUMMARY STATEMENT:

During our work session on January 12th 2017 we discussed the geographical areas the commission wanted to include into the Waterfront Master Plan and potential features and uses of those areas. The information captured during this work session is attached to this agenda item for your review.

During this work session staff would like to;

- Identify all waterfront user groups, and begin to develop a process and plan for inclusion into the planning process.
- Identify other city commissions, taskforces and stakeholders that should play a role in the waterfront planning process.
