Funding Source: N/A

RECOMMENDATION:

Report- Information Only

SUMMARY STATEMENT:

As requested by council attached is a detailed list of the overall Emergency Preparedness Exercise being conducted from February the 20th through the 26th, locally here in Valdez.

The City will play several roles during the response/exercise as follows;

- **The Port and Police Departments** recognize that with our limited amount of city resources the Port and Police Departments would quickly become overwhelmed trying meet federally mandated security requirements and public safety over a prolonged event.
 - We will be working to coordinate assets between the City and the Military to provide Port Security and Public Safety continuously throughout the event.
 - This training event will satisfy the federally mandated 33 CFR 105 security exercise required for the Port Security Plan.
 - Project lead Jenessa Ables and her staff have been working on a weekly basis since early fall of 2017 to assist with coordination, snow removal, site selection, and props for the simulation.
- **The Fire Department and City Administration** will be working/observing within the Unified Command Team.
- **The Economic Development/Events Department** has been involved and coordinating with the public to create a “Community Market” for the approximate 200 out of region response

team personnel.
