### **RECOMMENDATION:**

Approve Resolution No. 19-05.

### **SUMMARY STATEMENT:**

The purpose of the Shared Fisheries Business Tax Program is to provide for an annual sharing of fish tax (collected outside municipal boundaries) to municipalities that can demonstrate they suffered significant effects from fisheries business activities. This program is administered separately from the state fish tax sharing program administered by the Department of Revenue which shares fish tax revenues collected inside municipal boundaries. To be eligible for an allocation under this program, applicants must:

1. Be a municipality (city or borough); and
2. Demonstrate the municipality suffered significant effects as a result of fisheries business activity that occurred within its respective fisheries management area(s).

There is both a standard and alternate method for calculating the shared fisheries business tax. Under the Alternate Method, all incorporated jurisdictions within a management area can agree to a specific type of allocation that benefits each community. For years, Valdez has joined with the other communities in the Prince William Sound Management Area agreeing to equal distribution between all three entities (Cordova, Whittier and Valdez).
